## **CEO Alain Castro of Ener Core, Inc. to Be Interviewed LIVE on Clear Channel Business Talk Radio - July 22nd, 2014**

**Interview Airs at 7:30am EDT / 4:30am PDT on the Traders Network Radio Show, Hosted by Michael Yorba**

IRVINE, CA -- (Marketwired) -- 07/21/14 -- Ener Core, Inc. (OTCBB: ENCR) announced today that Chief Executive Officer (CEO) Alain Castro will be interviewed live tomorrow by host Michael Yorba on Clear Channel Business Talk Radio's The Traders Network Show. In this exclusive 2-segment interview, Mr. Castro will be discussing the Ener-Core breakthrough technology, the Gradual Oxidizer, which enables the conversion of polluting waste gases to useful clean power. This disruptive technology will help reduce the air pollution that results from industries emitting their waste gases into the atmosphere, while at the same time enabling these industries to create profitable income stream from these waste gases.

We encourage shareholders, analysts, industry professionals and all interested parties to tune in and listen live via Clear Channel's nationally syndicated iHeart Radio stream.

*Date:* Tuesday, July 22nd, 2014

*Start Time:* 7:30am ET | 4:30am PT | 6:30am CT (U.S.)

*Network:* Clear Channel

*Station:* [DFW 1190AM](#)

*KFXR Show:* The Traders Network

*Host:* Michael Yorba

*Live iHeart Radio Stream:* <http://www.iheart.com/live/4276/?autoplay=true>

*About Clear Channel:* Clear Channel's Media and Entertainment division has the largest reach of any radio or television outlet in America with 243 million monthly listeners. It serves 150 cities through 850 owned radio stations in the U.S., as well as more than 140 stations in New Zealand and Australia. [www.clearchannel.com](http://www.clearchannel.com).

*About Michael Yorba:* Mr. Yorba is the founder of Yorba Media and featured host on Clear Channel. For the past six years he has produced and hosted "The Traders Network Show" broadcasted live daily on Clear Channel DFW 1190AM KFXR from 6am - 7:30am and 2pm - 3pm CT, Monday-Friday.

Michael Yorba interviews the front-page Titans about the latest in capital markets, CEO milestones, trading tools, real estate acquisitions and market trends. Learn how the experts use risk management techniques to build fully diversified portfolios and what it takes to put up big board earnings. It's a fast moving, high-energy show that presents

stocks, commodities, bonds, forex, derivatives, real estate, political trends, technology trends, crowd funding and impact investment insights in a new light and keeps audience asking for more... shift your thinking and join us as we deliver "tomorrow's ideas today" on Clear Channel's The Traders Network Show.

*About Ener-Core, Inc:* Ener-Core designs and manufactures innovative systems for producing continuous energy from a broad range of sources, including previously unusable ultra-low quality gas. The Ener-Core Gradual Oxidizer, our patented oxidation technology, enables the conversion of these gases into useful heat and power with the lowest known associated emissions. With the Ener-Core Gradual Oxidizer matched to gas turbines, Ener-Core offers systems with fuel flexibility and pollution control for power generation. The Gradual Oxidizer can also be customized for integration with larger existing power generation systems to offer unparalleled pollution control and achieve zero emissions.

Ener-Core has developed the 250kW Ener-Core Powerstation FP250 ("FP250"), and its larger counterpart, the 2MW Ener-Core Powerstation KG2-3G/GO, to transform methane gas, especially "ultra-low-Btu gas" from landfills, coal mines, oil fields and other low quality methane sources into continuous clean electricity with near-zero emissions. The Powerstations are specifically engineered for fuel flexibility and modularity, so that these low-Btu gas sources can be used as an energy resource instead of wasted through venting and/or flaring.

With dedication, deep expertise, and broad energy experience, Ener-Core seeks to serve several markets globally, including oil fields, biogas, coalmines, natural gas, emissions control, and utility power generation. For more information, please visit the Ener-Core website: [www.Ener-Core.com](http://www.Ener-Core.com).
