SilverSun Technologies Establishes IT Security and Compliance Division

EAST HANOVER, NJ / ACCESSWIRE / April 7, 2021 SilverSun Technologies, Inc. (NASDAQ:SSNT), a national provider of transformational business software applications and managed IT services, announced today that its wholly-owned subsidiary, SWK Technologies, Inc., has established an IT security and compliance division. The new practice will assist SWK's 5000+ customers in achieving compliance goals to meet or exceed regulatory compliance obligations.

SWK's managed service provider ("MSP") offers cyber-security, business continuity, disaster recovery, application hosting, help desk, and cloud services, and has been named to the CRN® 2021 Managed Service Provider (MSP) 500 list in the Elite 150 category for five consecutive years. The new security and compliance division is the next step in providing innovative and forward-thinking approaches to managed services.

Mark Meller, CEO of both SilverSun and SWK, stated, "Nothing is more important to our clients than their network security. We know that security and compliance go hand-in-hand, yet many organizations find it hard to deploy, maintain, and protect their technology. State and federal regulations can seem complex and resource-hungry, but they cannot be ignored. In the event of a willful or accidental data breach, lawsuits from affected parties or steep fines from a government agency can threaten the viability of an organization."

Meller continued, "Our new division will help clients develop a comprehensive information security program to understand the threats, risks, and potential impacts to their businesses. SWK will provide audits to determine current level of regulatory compliance, remediation for vulnerabilities detected on systems, advice on specific steps needed to achieve compliance, and other tools to secure the customer's primary infrastructure. Given today's environment, we expect that this will be a high-demand offering to our customers for years to come."

About SilverSun Technologies, Inc.

We are a business application, technology and consulting company providing software and IT solutions to meet our clients' information, technology and business management needs. Our services and technologies enable customers to manage, protect and monetize their enterprise assets whether on-premise or in the "cloud". As a value-added reseller of business application software, we offer solutions for accounting and business management, financial reporting, Enterprise Resource Planning ("ERP"), Warehouse Management Systems ("WMS"), Customer Relationship Management ("CRM"), Business Intelligence ("BI"), Human Capital Management ("HCM") and other business applications. Our value-

added services focus on consulting and professional services, specialized programming, training, and technical support. We have a dedicated network managed services practice that provides cybersecurity, application hosting, disaster recovery, business continuity, cloud and other services. Our customers are nationwide, with concentrations in the New York/New Jersey metropolitan area, Chicago, Arizona, Southern California, North Carolina, Washington and Oregon.

Forward-Looking Statements

This news release includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended, regarding, among other things our plans, strategies and prospects -- both business and financial. Although we believe that our plans, intentions and expectations reflected in or suggested by these forward-looking statements are reasonable, we cannot assure you that we will achieve or realize these plans, intentions or expectations. Forward-looking statements are inherently subject to risks, uncertainties and assumptions. Many of the forward-looking statements contained in this news release may be identified by the use of forward-looking words such as "believe," "expect," "anticipate," "should," "planned," "will," "may," "intend," "estimated," and "potential," among others. Important factors that could cause actual results to differ materially from the forward-looking statements we make in this news release include market conditions and those set forth in reports or documents that we file from time to time with the United States Securities and Exchange Commission. All forward-looking statements attributable to SilverSun Technologies, Inc. or a person acting on its behalf are expressly qualified in their entirety by this cautionary language.
