The webcast will be available on the MYOS website, <https://ir.myosrens.com/>, in the "Investor Relations" section. The webcast will be archived and available at the same web address for two weeks following the call.

About MYOS RENS Technology Inc.

MYOS RENS Technology Inc. (MYOS), "The Muscle Company™", is a Cedar Knolls, NJ-based bionutrition company that develops and markets products that improve muscle health and performance. MYOS is the owner of Fortetropin[®], the world's first clinically-demonstrated myostatin reducer. Myostatin is a natural regulatory protein, which inhibits muscle growth. Fortetropin[®] is a fertilized egg yolk based product manufactured via a proprietary process to retain and optimize its biological activity. Fortetropin[®] has been clinically shown to increase muscle size and lean body mass in conjunction with resistance training. MYOS believes Fortetropin[®] has the potential to redefine existing standards of physical health and wellness. For more information, please visit www.MYOSRENS.com.

Forward-Looking Statements

Any statements in this release that are not historical facts are forward-looking statements. Actual results may differ materially from those projected or implied in any forward-looking

statements. Such statements involve risks and uncertainties, including but not limited to those relating to product and customer demand, market acceptance of our products, the ability to create new products through research and development, the successful results of strategic initiatives, the successful launch of our products, including Qurr[®] products, the success of our research and development, including the clinical studies described above, the results of the clinical evaluation of Fortetropin[®] and its effects, the ability to enter into new partnership opportunities and the success of our existing partnerships, the ability to generate the forecasted revenue stream and cash flow from sales of our products, the ability to continue increasing our revenue and gross profit margins, the ability to achieve a sustainable, profitable business, the effect of economic conditions, the ability to protect our intellectual property rights, competition from other providers and products, the continued listing of our securities on the Nasdaq Stock Market, risks in product development, our ability to raise capital to fund continuing operations, and other factors discussed from time to time in our filings with the Securities and Exchange Commission. We undertake no obligation to update or revise any forward-looking statement for events or circumstances after the date on which such statement is made except as required by law.

These statements have not been evaluated by the Food and Drug Administration. Our products are not intended to diagnose, treat, cure or prevent any disease.
