MariMed Reports Strong Second Quarter 2021 Earnings

Revenue Increased to \$32.6 million, a 239% Increase Year Over Year

EBITDA Increased to \$12.3 million, a 440% Increase Year Over Year

Raises Guidance for Revenue and EBITDA for Full Year 2021, and Adds Adjusted EBITDA

NORWOOD, Mass., Aug. 16, 2021 /CNW/ - MariMed, Inc. (OTCQX: MRMD) ("MariMed" or the "Company"), a leading multi-state cannabis operator focused on health and wellness and improving lives every day, today announced its financial and operating results for the quarter ended June 30, 2021.

Q2 2021 Financial Highlights

- Reported revenue of \$32.6 million, an increase of 239% versus the second quarter of 2020, and an increase of 32% versus the first quarter of 2021.
- Reported gross profit on revenue of \$19.4 million, an increase of 215% versus the second quarter of 2020, and an increase of 47% versus the first quarter of 2021.
- Reported EBITDA of \$12.3 million, the 6th sequential quarter of positive EBITDA growth. Reported EBITDA increased 440% versus the second quarter of 2020, and an increase of 61% versus the first quarter of 2021.
- Reported Adjusted EBITDA of \$13.9 million, a 391% increase in the second quarter of 2020 versus an increase of 73% in the first quarter of 2021.
- Reported net income of \$7.6 million in the second quarter of 2021 versus a net loss of \$1.1 million in the second quarter of 2020, and net income of \$4.3 million versus the first quarter of 2021.
- Increased working capital as of the end of the second quarter of 2021 to \$24.3 million, an increase of \$26.5 million versus the end of the fourth quarter of 2020, and an

increase of \$7.2 million versus the end of the first quarter of 2021.

- Reported \$10.8 million in positive cash flow from operations in the second quarter of 2021, an increase of \$9.9 million versus the second quarter of 2020, and an increase of \$4.0 million versus the first quarter of 2021, continuing to show the Company's ability to convert EBITDA to free cash flow.
- The Company increased its 2021 guidance for revenue from \$100 million to \$118 million and EBITDA from \$30 million to \$32 million. The Company is also including guidance for the first time of Adjusted EBITDA of \$42 million.

"We are extremely pleased with our continued improving financial performance during the second quarter," said Bob Fireman, CEO and President of MariMed. "We continue to report some of the strongest revenue and EBITDA growth in the entire cannabis industry. Our strong financial position is the result of our operational excellence combined with our financial discipline. I could not be more confident in our ability to maintain our trajectory to be a top tier MSO and deliver improved stockholder value as we continue to execute on our Strategic Plan."

Q2 2021 Operational Highlights

The continued strong financial performance of the Company in the second quarter of 2021 was driven by:

- A significant increase in wholesale sales, particularly in Massachusetts, where the Company benefited from higher production at the New Bedford, MA cultivation and manufacturing facility.
- The Company's retail locations in Massachusetts and Illinois saw strong growth. Its Panacea Wellness dispensary in Middleborough, MA experienced higher customer counts and increasing revenue throughout the quarter. Commencing operations in May, Thrive Metropolis, the fourth MariMed dispensary in southern Illinois, exceeded expectations. MariMed's three other Thrive branded dispensaries in the state, located in Anna, Harrisburg and Mt. Vernon, all had strong quarterly results.
- An increase in branded product sales and licensing fees associated with the Company's award-winning product portfolio, including its Betty's Eddies® vegan chews brand, Nature's Heritage™ premium flower, Kalm Fusion® precision dose chewable tablets brand, and others. MariMed brands are now available in six states and Puerto Rico. Betty's Eddies® is the #1 cannabis product brand in Massachusetts and Maryland, according to BDSA data.
- An increase in management fee resulting from the continued success of the Company's managed cannabis-licensed clients in Delaware, Maryland, and Nevada.

Going forward, the Company expects continued strong financials by the implementation of its Strategic Growth Plan and its four key components: (1) Completing its previously announced Consolidation Plan, centered on acquiring and consolidating the Company's existing clients into the public company; (2) Increasing revenues in existing states, by spending capital to increase the Company's cultivation and production capacity and developing new assets within those states; (3) Expanding the Company's footprint in additional legal cannabis states through new license applications and M&A; and (4) Expanding the Company's brand portfolio and licensing revenue, by continuing to build its portfolio of leading brands and license its brands with license holders in other legal states.

"In light of MariMed's significant organic growth, driven by the strong performance of our retail stores in Illinois and Massachusetts, stronger than expected wholesale sales, and other contributing factors, we are confident raising 2021 guidance," said Jon Levine, MariMed's Chief Financial Officer. "Based on these factors, we are increasing our 2021 revenue guidance to \$118 million, EBITDA to \$32 million, and including Adjusted EBITDA guidance for the first time of \$42 million."

Non-GAAP Financial Measures

The Company has provided in this release the non-GAAP financial measures of EBITDA and Adjusted EBITDA as a supplement to Revenues, Gross Profit, and other financial measures prepared in accordance with GAAP.

Management defines EBITDA as net income (loss), determined in accordance with GAAP, excluding interest income and interest expense, income taxes, depreciation of fixed assets, and amortization of intangibles.

Management defines Adjusted EBITDA in the same manner as EBITDA, with the following additional exclusions:

- non-cash expenses on debt and equity issuances;
- impairment or write-downs of intangible assets;
- unrealized gains and losses on investments and currency translations;
- legal settlements;
- gains or losses from the extinguishment of debt via the issuance of equity;
- discontinued operations; and
- merger- and acquisition-related transaction expenses.

Management believes EBITDA and Adjusted EBITDA are useful measures to assess the performance and liquidity of the Company as they provide meaningful operating results by excluding the effects of expenses that are not reflective of its operating business

performance. In addition, the Company's management uses EBITDA and Adjusted EBITDA to understand and compare operating results across accounting periods, and for financial and operational decision making. The presentation of EBITDA and Adjusted EBITDA is not intended to be considered in isolation or as a substitute for the financial information prepared in accordance with GAAP.

Management believes that investors and analysts benefit from considering EBITDA and Adjusted EBITDA in assessing the Company's financial results and its ongoing business as it allows for meaningful comparisons and analysis of trends in the business. EBITDA and Adjusted EBITDA are used by many investors and analysts themselves, along with other metrics, to compare financial results across accounting periods and to those of peer companies.

As there are no standardized methods of calculating non-GAAP measurements, the Company's calculations may differ from those used by analysts, investors, and other companies, even those within the cannabis industry, and therefore may not be directly comparable to similarly titled measures used by others.
