

## Perma-Fix Reports Record Revenue and Net Income for the Third Quarter; Net Income Increases 167 Percent

ATLANTA, Nov. 4 /PRNewswire-FirstCall/ -- Perma-Fix Environmental Services, Inc. (Nasdaq: PESI; BSE) (Germany: PES.BE) today announced revenues of \$25.5 million for the quarter ended September 30, 2003, compared with revenues of \$24.2 million for the quarter ended September 30, 2002. Net income for the quarter was approximately \$4.0 million, or \$.12 per share, compared with net income of \$1.5 million, or \$.04 per share for the quarter ended September 30, 2002.

Results reflect a change in accounting estimate within the nuclear segment, whereby the percentage of completion methodology for revenue recognition was refined. The impact of the new accounting estimate was a deferral of approximately \$3.8 million in revenue and \$1.0 million in net income or \$.03 per share for the quarter. The change in estimate had no impact on cash flow.

The increase in revenues for the quarter ended September 30, 2003, is due to an increase in the industrial segment revenues of approximately \$2.3 million, to \$12.2 million, compared with the same period of 2002. Revenue in the nuclear segment declined \$1.1 million, to \$12.5 million, from the same period last year, reflecting the change in accounting estimates.

For the nine months ended September 30, 2003, consolidated revenues increased to \$64.9 million from \$63.2 million for the period ended September 30, 2002. Net income for the nine months was \$2.3 million, or \$.07 per share, compared with net income of \$2.2 million, or \$.07 per share for the same period in 2002.

Dr. Louis F. Centofanti, Chairman and Chief Executive Officer, commented, "We experienced a significant improvement in earnings, which we attribute to top-line growth, coupled with careful management of our expenses. Importantly, our industrial segment showed continued improvement and our nuclear services segment is back on track following the Department of Energy's lockdowns earlier this year. In fact, the nuclear revenues for the quarter would have exceeded the prior year, if not for the change in accounting estimate. In September our facilities received especially strong shipments of mixed waste, accounting for the increase in our accounts receivable, as well as contributing to revenue and cash flow in the fourth quarter. These strong results reinforce the need for investors to measure our performance on an annual versus a quarterly basis."

Dr. Centofanti continued, "We remain optimistic about the long-term growth opportunities. We are beginning to explore strategic opportunities that may enable us to improve the flow of mixed waste to our facilities. More importantly, we have barely scratched the surface of

the untapped multi- billion dollar mixed waste market. Additionally, we are continuing to pursue emerging opportunities to treat chemical-weapon by-products with our new biological water-treatment process."

Perma-Fix Environmental Services, Inc. is a national environmental services company, providing unique mixed waste and industrial waste management services. The Company has increased its focus on the nuclear services segment, which provides radioactive and mixed waste treatment services to hospitals, research laboratories and institutions, numerous federal agencies including the Departments of Energy and Defense and nuclear utilities. The industrial services segment provides hazardous and non-hazardous waste treatment services for a diverse group of customers including Fortune 500 companies, numerous federal, state and local agencies and thousands of smaller clients. The Company operates nine major waste treatment facilities across the country.

This press release contains "forward-looking statements" which are based largely on the company's expectations and are subject to various business risks and uncertainties, certain of which are beyond the company's control. Forward-looking statements include, but are not limited to, long-term growth opportunities and the improvement of the flow of mixed waste to our facilities. These forward-looking statements are intended to qualify for the safe harbors from liability established by the Private Securities Litigation Reform Act of 1995. While the company believes the expectations reflected in this news release are reasonable, it can give no assurance such expectations will prove to be correct. There are a variety of factors which could cause future outcomes to differ materially from those described in this release, including without limitation, future economic conditions, industry conditions, competitive pressures, the ability of the company to successfully apply its technologies and successfully treat mixed waste, the DOE's failure to abide by or comply with the Oak Ridge contracts or to deliver waste as anticipated. The company makes no commitment to disclose any revisions to forward-looking statements, or any facts, events or circumstances after the date hereof that bear upon forward-looking statements.
