Annamarie Gayle, CODA's CEO, commented: "I am very pleased to announce another set of good results for the Group. The results for the first nine months of fiscal year 2017 are tracking significant progress. We have achieved good growth in both sales and net income, despite the adverse effects on our sales due to uncertainties in defense budgetary and spending priorities of the new U.S. Administration. Additionally, this past quarter we incurred increased costs associated with the refinancing of our high-yield debt with a traditional banking line with HSBC, SEC reporting, and our uplisting to Nasdaq.

"Looking ahead, we are optimistic that our Engineering Services business will increase its pace of growth once the Administration's priorities settle, and that the fruits of our next-generation Research and Development program will impact our Products business beginning in the next year. Several new product launches, incorporating our real-time 3D sonars, are planned and we expect to see continued growth for the Group in the months ahead."
