"We strengthened our leadership position in the high-end and polished casual segments by delivering another quarter of outstanding financial results for our shareholders. During the second quarter, we experienced a significant sales increase compared to both 2020 and 2019. Guests were eager to join us for VIBE dining experiences and drove our average weekly volumes in the quarter to \$288,000 and \$103,000 for STK and Kona Grill respectively. We leveraged our top-line momentum into record restaurant level operating profit and adjusted EBITDA. The combination of our strong underlying business fundamentals, level of execution and robust pipeline of development opportunities, including new Kona Grill locations, drive our continued confidence in our growth going forward," said

Emanuel "Manny" Hilario, President and CEO of The ONE Group.

Hilario continued, "We are pleased to have opened six exciting new venues so far this year and they are performing at or above expectations. We intend to open a total of 13 new STK and F&B venues in 2021 and 2022, and we view ourselves as having a long-term addressable market of at least 200 STK restaurants globally and at least 200 Kona Grill restaurants domestically with an initial growth target of three to five Kona Grills per year."

*Comparable sales represent total U.S. food and beverage sales at owned and managed units opened for at least a full 18-month period. This measure includes total revenue from our owned and managed locations. Two-year comparable sales relate to the comparison of comparable sales for the period of 4/1/2021 through 6/30/2021 to the period of 4/1/2019 through 6/30/2019 and for the period of 7/1/2021 through 7/31/2021 to the period of 7/1/2019 through 7/31/2019. The Company monitors sales growth at its established restaurant base in addition to growth that results from restaurant acquisitions; the Company has presented two-year comparable sales to illustrate how sales at its restaurant base before the COVID-19 pandemic compare to sales as COVID-19 restrictions have eased and the Company has begun to recover lost sales.

** Adjusted EBITDA. We define Adjusted EBITDA as net income before interest expense, provision for income taxes, depreciation and amortization, non-cash impairment loss, noncash rent expense, pre-opening expenses, non-recurring gains and losses including incremental costs related to COVID-19, stock-based compensation and certain transactional costs. Adjusted EBITDA has been presented in this press release and is a supplemental measure of financial performance that is not required by, or presented in accordance with, GAAP. Refer to the reconciliation of Adjusted EBITDA to Net Income in this release.

Second Quarter 2021 Financial Results

Total GAAP revenues increased 324.6% to \$70.8 million in the second quarter of 2021 from \$16.7 million in the second quarter of 2020.

Total owned restaurant net revenues increased 310.5% to \$67.8 million in the second quarter of 2021 from \$16.5 million in the second quarter of 2020. The increase was primarily attributable to strong sales momentum as state and local governments eased seating capacity restrictions in the markets in which the Company operates coupled with strong execution of the Company's sales initiatives. Consolidated comparable restaurant sales* increased 324.1% in the second quarter of 2021 from the second quarter of 2020 and 38.0% from the second quarter of 2019.

Management, license and incentive fee revenues increased \$2.8 million to \$2.9 million in the second quarter of 2021 compared to \$0.1 million in the second quarter of 2020. The increase was the result of local governments easing seating capacity restrictions in the markets in which we operate, coupled with the opening of STK Scottsdale in January, STK Los Cabos Airport in May, and two managed F&B venues in May.

Restaurant Operating Profit^{***} was \$15.3 million, or 22.6% of Company-owned restaurant net revenues, in the second quarter of 2021 compared to \$0.3 million, or 1.9% of Company-owned restaurant net revenues, in the second quarter of 2020. The improvement was primarily driven by higher sales and strong management of operating costs coupled with

menu development and optimization as restaurants re-opened.

GAAP net income attributable to The ONE Group Hospitality, Inc. in the second quarter of 2021 was \$13.8 million, or \$0.41 per share, compared to GAAP net loss of \$2.9 million, or \$0.10 net loss per share, in the second quarter of 2020. Second quarter 2021 net income included an \$8.6 million gain on CARES Act Loan forgiveness offset by \$1.1 million of incremental costs related to COVID-19.

Adjusted Net Income^{****} attributable to The ONE Group Hospitality, Inc. in the second quarter of 2021 was \$6.5 million, or \$0.19 per share, compared to adjusted net loss of \$2.4 million, or \$0.08 net loss per share, in the second quarter of 2020.

Adjusted EBITDA^{**} increased to \$12.9 million in the second quarter of 2021 from a loss of \$0.8 million in the second quarter of 2020.

As of June 30, 2021, the Company had \$41.4 million in cash and cash equivalents, \$47.2 million in term loan debt, and \$10.7 million available on its revolving credit facility, subject to restrictions.

In June 2021, the Company was notified that the Small Business Administration (SBA) had forgiven the CARES Act Loan for Kona Grill Acquisition, LLC in its entirety. As a result, the Company recognized an \$8.6 million gain on CARES Act Loan forgiveness for the three months ended June 30, 2021. Subsequently, in July 2021, the Company was notified that the SBA had forgiven the CARES Act Loan for The ONE Group, LLC in its entirety. As a result, all CARES Act Loans have been forgiven.

On August 6, 2021, the Company amended its credit agreement with Goldman Sachs Bank USA. The amended agreement provides for a lower interest rate, additional flexibility and extends the maturity date for both the term loan and revolving credit facility by five years to August 2026. The amendment provides for a secured revolving credit facility of \$12.0 million and a \$25.0 million term loan. Other key modifications include the removal of restrictions for capital expenditures and the number of new Company-owned locations and the removal of all financial covenants except a maximum leverage ratio of 2.00 to 1.00.

***Restaurant Operating Profit. We define Restaurant Operating Profit as owned restaurant net revenue minus owned restaurant cost of sales and owned restaurant operating expenses. Restaurant Operating Profit has been presented in this press release and is a supplemental measure of financial performance that is not required by, or presented in accordance with, GAAP. Refer to the reconciliation of Restaurant Operating Profit to Operating income (Loss) in this release.

****Adjusted Net Income (Loss). We define Adjusted Net Income as net income before gains on CARES Act Loan forgiveness, COVID-19 costs, one-time stock-based compensation and the income tax effect of the adjustment. Adjusted Net Income has been presented in this press release and is a supplemental measure of financial performance that is not required by, or presented in accordance with, GAAP. Refer to the reconciliation of Adjusted Net Income to Net Income (Loss) in this release.

Reconciliation of Non-GAAP Measures

We prepare our financial statements in accordance with generally accepted accounting principles (GAAP). In this press release, we also make references to the following non-

GAAP financial measures: total food and beverage sales at owned and managed units, Adjusted EBITDA, Restaurant Operating Profit and Adjusted Net Income (Loss).

Total food and beverage sales at owned and managed units. Total food and beverage sales at owned and managed units represents our total revenue from our owned operations as well as the revenue reported to us with respect to sales at our managed locations, where we earn management and incentive fees at these locations. We believe that this measure represents a useful internal measure of performance as it identifies total sales associated with our brands and hospitality services that we provide. Accordingly, we include this non-GAAP measure so that investors can review financial data that management uses in evaluating performance, and we believe that it will assist the investment community in assessing performance of restaurants and other services we operate, whether or not the operation is owned by us. However, because this measure is not determined in accordance with GAAP, it is susceptible to varying calculations and not all companies calculate these measures in the same manner. As a result, this measure as presented may not be directly comparable to a similarly titled measure presented by other companies. This non-GAAP measure is presented as supplemental information and not as an alternative to any GAAP measurements. The following table includes a reconciliation of our GAAP revenue to total food and beverage sales at our owned and managed units (in thousands):

Adjusted EBITDA. We define Adjusted EBITDA as net income before interest expense, provision for income taxes, depreciation and amortization, non-cash impairment loss, non-cash rent expense, pre-opening expenses, non-recurring gains and losses, stock-based

compensation, COVID-19 related expense and certain transactional costs. Not all the aforementioned items defining Adjusted EBITDA occur in each reporting period but have been included in our definitions of terms based on our historical activity. Adjusted EBITDA has been presented in this press release and is a supplemental measure of financial performance that is not required by, or presented in accordance with, GAAP.

The following table presents a reconciliation of net income to EBITDA and Adjusted EBITDA for the periods indicated (in thousands):

(2) Lease termination expense are costs associated with closed, abandoned and disputed locations or leases.

(3) Non-cash rent expense is included in owned restaurant operating expenses and general and administrative expense on the consolidated statements of operations and comprehensive income (loss).

Restaurant Operating Profit. We define Restaurant Operating Profit as owned restaurant net revenue minus owned restaurant cost of sales and owned restaurant operating expenses.

We believe Restaurant Operating Profit is an important component of financial results because: (i) it is a widely used metric within the restaurant industry to evaluate restaurant-level productivity, efficiency, and performance, and (ii) we use Restaurant Operating Profit as a key metric to evaluate our restaurant financial performance compared to our competitors. We use these metrics to facilitate a comparison of our operating performance on a consistent basis from period to period, to analyze the factors and trends affecting our business and to evaluate the performance of our restaurants.

The following table presents a reconciliation of Operating income (loss) to Restaurant Operating Profit for the period indicated (in thousands):

Adjusted Net Income (Loss). We define Adjusted Net Income as net income before gains on CARES Act Loan forgiveness, COVID-19 costs, one-time stock-based compensation and acceleration and the income tax effect of the adjustment.

We believe that Adjusted Net Income is an appropriate measure of operating performance, as it provides a clear picture of our operating results by eliminating certain one-time expenses that are not reflective of the underlying business performance. Adjusted Net Income is included in this press release because it is a key metric used by management, and we believe that it provides useful information facilitating performance comparisons from period to period. Adjusted Net Income has limitations as an analytical tool and our calculation thereof may not be comparable to that reported by other companies; accordingly, you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP.
