BOULDER, Colo., Aug. 11, 2025 (GLOBE NEWSWIRE) -- Gaia, Inc. (NASDAQ: GAIA), a conscious media and community company, reported financial results for the second quarter ended June 30, 2025.

## Highlights:

- Gross profit increased 16% and revenue increased 12%, compared to Q2 of the prior year, which represents the sixth consecutive quarter of double digit increases
- Continued positive operating and free cash flow generation
- Gaia's subsidiary, Igniton, raised \$6 million in July, increasing Igniton's implied postmoney valuation to \$106 million

"As planned, we continued to deliver on positive free cash flow and double-digit growth for the quarter," said Jirka Rysavy, Gaia's Chairman. "In July, our subsidiary, Igniton, raised \$6 million of private common equity financing, including \$2.0 million from Gaia, at an implied post-money valuation of \$106 million, up from an implied post-money valuation of \$40 million from last year's raise. The proceeds from the financing will be used by Igniton for product launch, general operating expenses and certain capital expenditures to support future growth. Gaia now owns approximately two-thirds of Igniton equity."

Kiersten Medvedich, Gaia's CEO, commented: "We are pleased to see the momentum from 2024 carrying into Q2, with strong revenue growth and improvements in profitability. Our annualized gross profit per employee increased to \$814,000 from \$695,000 in the prior-year quarter, a reflection of the dedication and focus of our team. With continued investment in content, AI, and our global community platform, we are building a more personalized, connected, and expansive Gaia—one that offers our members more value and deeper connection."

Gaia CFO, Ned Preston, stated: "In the second quarter, when compared to the second quarter of 2024, we delivered 12% revenue growth, up \$2.7 million to \$24.6 million, while our improved operational execution and efficiency drove a \$0.02 improvement in EPS to \$(0.07). We strengthened our financial position by generating positive operating and free cash flow, underscoring our disciplined approach and long-term growth strategy."

## **Non-GAAP Measures**

In addition to disclosing financial results calculated in accordance with generally accepted accounting principles in the United States of America (GAAP), the financial information included in this release contains non-GAAP financial measures, including Free Cash Flow. These non-GAAP measures should not be considered a substitute for, or superior to, financial measures and results calculated in accordance with GAAP, including net income, and reconciliations to GAAP financial statements should be carefully evaluated. Free Cash Flow represents net cash provided by operating activities plus cash paid for interest payments, less cash used in investing activities, plus cash from non-core business activities. We believe Free Cash Flow is also useful as one of the bases for comparing the Gaia's performance with its competitors. Although Free Cash Flow and similar measures are frequently used as measures of cash flows generated from operations by other companies, Gaia's calculation of Free Cash Flow might not necessarily be comparable to such other similarly titled captions of other companies. We believe that both management and investors benefit from referring to these non-GAAP financial measures in assessing our performance and when planning, forecasting and analyzing future periods.
