- 2015 year-to-date non-GAAP operating loss improved \$654,000, or 20% from a loss of \$3.3 million in 2014 to a loss of \$2.7 million in 2015.
- Mobivity was selected to [power SMS mobile marketing solutions for SUBWAY® restaurant chain](#) which has more than 27,000 U.S. locations.
- The Company's SmartReceipt solution is now processing over 40 Million point-of-sale transactions monthly, which represents an increase of more than 100% over the same period last year.

Dennis Becker, CEO of Mobivity, commented, "The continuing revenue growth we are experiencing through Q3 2015 is a direct result of new customer wins in earlier quarters and expansion of existing customer programs, including installations of our patented SmartReceipt POS and SmartSMS solutions. While we're very excited to post a record quarter, we feel we're only at the beginning of our growth opportunity given our current customers represent over 25,000 more locations in which we have yet to deploy."

Mr. Becker continued, "There is a substantial amount of opportunity to scale embedded in our business model. By achieving record gross profit this quarter, we have demonstrated operating and earnings leverage such that if we continue to experience further increases in sales and gross profit, we should see improving results in both operating income and net

income."

Third Quarter 2015 Financial Results

Revenue for the third quarter of 2015 was \$1,304,000 compared to \$1,044,000 in the third quarter of 2014, representing a year-over-year increase of \$260,000, or 25%. The increase is primarily attributable to increases in SmartReceipt revenue from both new programs with new customers as well as expansion of existing programs with current customers.

Gross margin for the third quarter of 2015 was 78% compared to 74% in the third quarter of 2014. The increase in gross profit in the third quarter is primarily due to holding sales costs relatively flat while growing revenues.

Operating expenses for the third quarter of 2015 were \$2,448,000 compared to \$2,205,000 in the prior year quarter. The increase was primarily attributable to increased general and administrative personnel costs and sales and marketing costs related to generating new business.

Net loss for the third quarter of 2015 was \$(1,322,000), or \$(0.05) per diluted share, compared to a net loss of \$(1,438,000), or \$(0.06) per diluted share, in the third quarter of 2014.

Year-to-date Adjusted Net Loss, a non-GAAP metric (see note on non-GAAP Measurements) was \$(2.7) million through the third quarter of 2015 as compared to \$(3.3) million for the same period in 2014.
