

COMPANY OVERVIEW

Cardax is a development stage biopharmaceutical company primarily focused on the development of pharmaceuticals for chronic diseases driven by inflammation. **CDX-101**, our astaxanthin pharmaceutical candidate, is being developed for cardiovascular inflammation and dyslipidemia, with a target initial indication of severe hypertriglyceridemia. **CDX-301**, our zeaxanthin pharmaceutical candidate, is being developed for macular degeneration, with a target initial indication of Stargardt disease. Our pharmaceutical candidates are currently in pre-clinical development, including the planning of IND enabling studies. We also have a commercial business unit that markets ZanthoSyn[®], a physician recommended astaxanthin dietary supplement for inflammatory health. We sell ZanthoSyn[®] primarily through wholesale and e-commerce channels.
