About Cocrystal Pharma

Cocrystal is a pharmaceutical company seeking to discover novel antiviral therapeutics as treatments for serious and/or chronic viral diseases. Cocrystal employs unique technologies and Nobel Prize winning expertise to create first- and best-in-class antiviral drugs. These technologies, including our nucleoside chemistry expertise and market-focused approach to drug discovery are designed to efficiently deliver small molecule therapeutics that are safe, effective and convenient to administer. The company has identified promising, preclinical stage compounds for hepatitis infections, and analogs that are effective against noroviruses. Cocrystal has previously received strategic investments from Teva Pharmaceuticals, OPKO Health ([OPK](#)), Dr. Raymond Schinazi, Brace Pharmaceutical, LLC, and The Frost Group.
