SilverSun Technologies Unveils New Corporate Website

LIVINGSTON, NJ -- (Marketwired) -- 06/18/15 -- [SilverSun Technologies, Inc.](http://www.silversuntech.com) (OTCQB: SSNT) (OTCBB: SSNT), a national provider of transformative business management technology solutions and services, today announced the launch of its new corporate website. Found at www.silversuntech.com, the new site endeavors to provide visitors with meaningful insight and perspective on the Company's growing business platform; and features intuitive navigation, video, comprehensive information about our service offerings and user friendly support resources relevant to shareholders, prospective investors and potential new business partners seeking information on SilverSun.

Commenting on the new website, Mark Meller, SilverSun Chairman and CEO, stated, "SilverSun has enjoyed remarkable growth over the past several years, with our diverse, yet complementary, product and service offerings expanding to meet the evolving business management needs of our valued customers. We felt the time had come to create a web presence that more accurately conveys our vision, key growth strategies and decision-making processes; and delivers our many stakeholders with a much more rich and engaging user experience."

About SilverSun Technologies, Inc.

Headquartered in Livingston, New Jersey, SilverSun is a business application, technology and consulting company providing strategies and solutions to meet its clients' information, technology and business management needs. Through its principal operating subsidiary, SWK Technologies, Inc., the Company offers services and technologies which enable customers to manage, protect and monetize their enterprise assets whether on-premise or in the "Cloud." As a value added reseller of business application software, the Company offers solutions for accounting and business management, financial reporting, Enterprise Resource Planning ("ERP"), Warehouse Management Systems, Customer Relationship Management and Business Intelligence. Additionally, it has its own in-house development staff building software solutions for Electronic Data Interchange, time and billing and various ERP enhancements. SilverSun's value-added services focus on consulting and professional services, specialized programming, training, and technical support; and it has a dedicated network services practice that provides managed services, hosting, business continuity, cloud, e-mail and web services. SilverSun's customers are nationwide, with concentration in the New York/New Jersey metropolitan area, Chicago, Dallas, Arizona and Southern California.
