Silvercrest Asset Management Group Inc. Reports Q3 2014 Results

NEW YORK, Nov. 12, 2014 /PRNewswire/ -- Silvercrest Asset Management Group Inc. (NASDAQ: SAMG) (the "Company" or "Silvercrest") today reported its results for the quarter ended September 30, 2014.

Business Update

Silvercrest successfully obtained meaningful new assets, contributing to the firm's organic growth, for the third quarter ended September 30, 2014, along with increased revenue. The firm's relationships increased from 526 as of June 30, 2014, to 533 as of September 30, 2014. There were 483 relationships as of December 31, 2013.

While total assets under management declined to \$16.4 billion during the third quarter due to market volatility, the firm's discretionary assets under management remained substantially unchanged for the quarter due to new client acquisition and client commitments.

We are pleased with the continued organic growth result during a time of market volatility. The firm's growth was due to organic growth in both our core family wealth business and continued progress building our institutional business.

The Company's Board of Directors declared a dividend of \$0.12 cents per Class A share payable on December 19, 2014 to Class A shareholders of record on December 12, 2014.

AUM of \$16.4 billion

Silvercrest's AUM decreased by \$0.3 billion, or 1.8%, to \$16.4 billion at September 30, 2014 from \$16.7 billion at June 30, 2014. The decrease in AUM was attributable to \$0.5 billion in market depreciation. This was partially offset by an increase in new discretionary AUM of \$0.2 billion during the quarter ended September 30, 2014.

Silvercrest's AUM increased by \$1.8 billion, or 12.3%, to \$16.4 billion at September 30, 2014 from \$14.6 billion at September 30, 2013. The increase was attributable to \$1.0 billion of net client inflows and \$0.8 billion of market appreciation.

Third Quarter 2014 vs. Third Quarter 2013

Revenue increased by \$3.1 million, or 20.9%, to \$17.8 million for the three months ended September 30, 2014, from \$14.7 million for the three months ended September 30, 2013. This increase was driven primarily by growth in the Company's management and advisory fees as a result of increased AUM.

Total expenses increased by \$1.8 million, or 15.5%, to \$13.3 million for the three months ended September 30, 2014 from \$11.5 million for the three months ended September 30, 2013. This increase was primarily attributable to increases in compensation and benefits expense and general and administrative expenses of \$1.6 million and \$0.2 million, respectively. The increase in compensation and benefits expense was primarily attributable to an increase in the partner incentive bonuses of \$1.4 million as a result of the recognition of partner incentive payments as compensation expense, an increase in accrued employee incentive bonuses of \$0.3 million, the accrual of earnouts related to our Richmond expansion of \$0.1 million and an increase in salaries expense of \$0.1 million, as a result of both merit increases and increased headcount. This was partially offset by a decrease in equity-based compensation expense primarily as a result of lower levels of deferred equity units due to vesting in prior periods. General and administrative expenses increased by \$0.2 million for the three months ended September 30, 2014 from the same period in the prior year. This increase was primarily due to an increase in occupancy and related expenses of \$0.2 million as a result of a reduction in subtenant rental income earned for the three months ended September 30, 2014 as compared to the same period in the prior year.

Consolidated net income was \$2.9 million. Net income attributable to Silvercrest was \$1.4

million, or \$0.18 per basic and diluted share for the three months ended September 30, 2014. The Company's Adjusted Net Income¹ was \$2.8 million, or \$0.23 per adjusted basic and diluted share⁴ for the three months ended September 30, 2014.

Adjusted EBITDA¹ was \$5.3 million or 29.7% of revenue for the three months ended September 30, 2014 as compared to \$4.3 million or 29.1% of revenue for the same period in the prior year.

Nine Months Ended September 30, 2014 vs. Nine Months Ended September 30, 2013

Revenue increased by \$8.9 million, or 20.7%, to \$51.8 million for the nine months ended September 30, 2014, from \$42.9 million for the nine months ended September 30, 2013. This increase was driven primarily by growth in the Company's management and advisory fees as a result of increased AUM.

Total expenses increased by \$11.1 million, or 39.6%, to \$39.2 million for the nine months ended September 30, 2014 from \$28.1 million for the nine months ended September 30, 2013. This increase was primarily attributable to increases in compensation and benefits expense and general and administrative expenses of \$9.9 million and \$1.2 million, respectively. The increase in compensation and benefits expense was primarily attributable to an increase in the accrual for partner incentive bonuses of \$9.8 million as a result of the recognition of partner incentive payments as compensation expense and an increase in salaries and benefits expense of \$0.5 million and \$0.2 million, respectively, as a result of both merit increases and increased headcount. This was partially offset by a decreased equity-based compensation expense of \$0.6 million primarily due to lower levels of deferred equity units due to vesting in prior periods. General and administrative expenses increased by \$1.2 million for the nine months ended September 30, 2014 from the same period in the prior year. This increase was primarily due to an increase in occupancy expense of \$0.5 million as a result of a reduction of subtenant rental income earned for the nine months ended September 30, 2014 as compared to the same period in the prior year, an increase in the provision for doubtful accounts of \$0.2 million in conjunction with increased revenue levels, an increase in client reimbursement costs of \$0.1 million, an increase in marketing costs of \$0.1 million, an increase in sub-advisory fees of \$0.1 million and an increase in insurance costs of \$0.1 million.

Consolidated net income was \$8.0 million. Net income attributable to Silvercrest was \$3.7 million, or \$0.48 per basic and diluted share for the nine months ended September 30, 2014. The Company's Adjusted Net Income¹ was \$7.6 million, or \$0.62 per adjusted basic and diluted share⁴ for the nine months ended September 30, 2014.

Adjusted EBITDA¹ was \$15.4 million or 29.7% of revenue for the nine months ended September 30, 2014 as compared to \$12.8 million or 29.9% of revenue for the same period in the prior year.

¹ Adjusted measures are non-GAAP measures and are explained and reconciled to the comparable GAAP measures in Exhibits 2 and 3.

² The Company has computed average AUM by averaging AUM at the beginning of the applicable period and AUM at the end of the applicable period.

³ The Company became the general partner of Silvercrest L.P. on June 26, 2013, but net income of Silvercrest L.P. was allocated to the Company effective July 2013 as allocable net income prior to July 2013 was de minimus. These model portfolios are not actual strategies in which clients can invest or allocate assets. They are hypothetical combinations of: (i) internally-managed strategies in which clients are invested and (ii) externally-managed funds or products in which clients are invested. We track three such portfolios depending on the overall strategy by which the securities purchased may be characterized. They are Income, Growth, and Balanced (Income and Growth). The returns shown assume annual rebalancing and reinvestment of dividends over the entirety of each of the periods shown. Some of the underlying returns used to calculate each portfolio's returns were net of fees and some were gross of fees. The rates of return for each of the three portfolios are presented gross of investment management fees and custody fees, but include the deduction of estimated brokerage commissions and transaction costs. An investor's actual return on a portfolio of the type shown would be reduced by the advisory fees and any other expenses it may incur in the management of the investment advisory account. For example, assume the Firm achieves a 10% annual return prior to the deduction of fees each year for a period of 10 years. If an annual investment management fee of 1% of assets under management for the 10 year period were charged, the resulting annual average return after fees would be reduced to 8.9%. Silvercrest's standard annual asset-based fee schedule is described in Part 2 of its Form ADV, and outsourced manager's standard annual asset-based fee schedules are described in Part 2 of each of their Form ADVs. Actual fees and expenses will vary depending on a variety of factors, including the size of a particular account. Generally, investment management fees are charged based upon the size of the portfolio, computed quarterly. An investor's actual result would be different from those portrayed in the models. A reader should not infer or assume that any portfolio is appropriate to meet the objectives, situation or needs of a particular investor, as the implementation of any financial strategy, and the purchase or sale of any security, should only be made after consultation with an attorney, tax advisor and investment advisor. Past performance is no indication of future results.

The benchmark is a composite of the S&P 500 Index, the Barclays Capital Aggregate Index, and the HFRI Fund of Funds Composite Index. Each index's blend is rebalanced annually. Index returns do not reflect a deduction for fees or expenses. Investors cannot invest directly in any of these indices.

The market indices used to compare to the performance of our strategies are as follows:

- The Barclays Capital Aggregate Index is an index of investment grade government and corporate bonds with a maturity of more than one year.
- The S&P 500 Index is a capitalization-weighted, unmanaged index that measures 500 widely held US common stocks of leading companies in leading industries, representative of the broad US equity market.
- The HFRI Fund of Funds Composite Index is an index that is equal weighted, net of fees, and comprised of over 1,500 funds which report to Hedge Fund Research.
