VSE Aviation and 1st Choice Aerospace to Support Aviation Clean Air and ACA/IAE's Ion Distribution Unit for the Global Aviation Market

COVID-19 Successfully Neutralized in Latest Laboratory Tests

ALEXANDRIA, Va.--(BUSINESS WIRE)-- VSE Aviation, Inc., a subsidiary of VSE Corporation (NASDAQ: VSEC), has been named the preferred partner for Aviation Clean Air's (ACA) airborne and ACA/IAE's ground-use purification and decontamination systems. VSE Aviation and its subsidiary 1st Choice Aerospace provide distribution and installation and product support, respectively.

Laboratory tests conducted by Innovative Bioanalysis in a setting designed to replicate the ionization conditions of corporate and commercial aircraft interiors showed neutralization of COVID-19 began immediately and that up to 99.4% of the virus was inactivated within 30 minutes both in the air and on surfaces.

ACA's patented Ionization Purification System is certified by the Federal Aviation Administration (FAA) for aircraft installation on multiple platform types. The proactive system, which operates through the aircraft's existing environmental control system (ECS), immediately improves interior air quality, eliminates odors and kills pathogens in the air and on surfaces throughout the aircraft. It uses a natural purification process that produces no harmful ozone or chemicals and requires no maintenance.

John Cuomo, President and CEO of VSE Corporation said, "We are proud to support ACA and ACA/IAE technology with product distribution, installation and support. We see this is as an important step for both commercial and business jet travel in restoring the confidence of passengers and crew."

For inquiries on the ACA air purification system, contact VSE Aviation at CleanAir@VSEaviation.com.

ABOUT VSE CORPORATION

VSE is a leading provider of aftermarket distribution and repair services for land, sea and air transportation assets for government and commercial markets. Core services include maintenance, repair and overhaul (MRO) services, parts distribution, supply chain

management and logistics, engineering support, and consulting and training services for global commercial, federal, military and defense customers. VSE also provides information technology and energy consulting services. VSE Aviation expands VSE's distribution, supply chain management and MRO capabilities to federal and commercial aviation markets. 1st Choice Aerospace is an FAA/EASA Part 145 Repair Station. For additional information regarding VSE's services and products, visit us at www.vsecorp.com, www.vseaviation.com and www.firstchoice.aero.

ABOUT AVIATION CLEAN AIR

Aviation Clean Air, LLC (ACA) offers the only proactive system that immediately improves interior air quality and kills pathogens where they live throughout the aircraft. ACA's airborne Ionization System is installed on a variety of aircraft models. Aviation Clean Air's facility is located adjacent to the Savannah/Hilton Head International Airport in Savannah, Georgia. For more information, please visit www.aviationcleanair.com.

ABOUT INTERNATIONAL AERO ENGINEERING

International Aero Engineering, LLC (IAE), founded in 1998 as a sister company to International Aero Services, LLC (founded in 1986), is a dependable and efficient source of quality Engineering, CATIA certified, Aircraft Test Equipment, Aircraft Ground Support Equipment and CNC Machined and Fabricated Parts for Aerospace, Military, Electronic and Commercial manufacturers. IAE also serves the Automotive, Motorsports, Aftermarket, Medical and Electronic industries. The company is ISO9001 / AS9100 Certified. For more information, please visit www.internationalaero.com.
