Clean Coal Technologies Inc., to present and sponsor at prestigious Coal Upgrading and Conversion Conference in Jakarta, Indonesia April 24-27 2012

NEW YORK-- **Clean Coal Technologies, Inc. ("CCTI")**, a cleaner-energy technology company, "fully-reporting" and listed on the OTCQB (symbol CCTC), announced today that they will be a sponsor and make a presentation at the Coal Upgrading and Conversion Conference on Implementing upgrading Technologies for Asia's vast low rank coal reserves in Jakarta, Indonesia from April 24-27. Dr. Dilo Paul will make the presentation on behalf of CCTI. <http://www.coalconversionasia.com>

CCTI's CEO, Robin Eves, stated: This is a tremendous forum for CCTI to present their Pristine M Technology to Indonesia and The ASEAN Region. It will also provide us with the opportunity to introduce our Joint Venture with the Archean Group. This is another step in our goal of establishing the CCTI as a global leader in dry coal Technology. This conference comes at a significant juncture in CCTI's development in that the building of the Pilot Plant will have begun.

About Clean Coal Technologies, Inc.

CCTI, (<http://www.cleancoaltechnologiesinc.com>) a cleaner-energy, technology company with major offices in Coral Spring, Florida and New York City, NY, owns a patented process technology to design and build, state of the art plants, which convert coal into a cleaner burning fuel source. This technology utilizes a patented pre-combustion beneficiation process. The Company's patented end product "PRISTINE™" coal is significantly more efficient, less polluting, more cost effective, and provides more heat than untreated dirty coal. The principal elements of this pre combustion technology are based on well-proven, off the shelf components and equipment. Its clean coal technology reduces some 90% of chemical pollutants from coal, including Mercury, thereby resolving emission issues affecting coal-fired power plants.

Forward-Looking Statements

Matters discussed in this press release contain forward-looking statements. Investors are cautioned that such forward-looking statements involve risk and uncertainties, which could significantly impact the actual results, performance or achievements of the Company. Such risks and uncertainties include, but are not limited to, the time frame for production of revenue, product development and commercial introduction, the impact of rapid price and technological change and competition, manufacturing and supply uncertainties and other risks.
