# Advaxis to Webcast Company Overview at the Cantor Fitzgerald Global Healthcare Conference

Focus on Future of *Lm Technology*<sup>TM</sup> and Four Key Clinical Franchises

PRINCETON, N.J.--(BUSINESS WIRE)-- Advaxis, Inc. (NASDAQ:ADXS), a late-stage biotechnology company focused on the discovery, development and commercialization of immunotherapy products, today announced its company overview at the [Cantor Fitzgerald Global Healthcare Conference](#), scheduled for Monday, Sept. 25, 2017 at 10:55 a.m. EDT, will be webcast live.

To access the live webcast, remote individuals can visit <http://wsj.com/webcast/cantor6/adxs/>. Full contact information and company affiliation are required. The full presentation slides and audio will be available for viewing immediately following the live presentation.

Anthony Lombardo, interim chief executive officer, will present the company overview, focusing on the future of *Lm Technology*<sup>TM</sup> and its opportunity to reach more patients while delivering greater value.

To learn more about Advaxis and its immunotherapy clinical programs, visit [www.advaxis.com/clinical-trials](http://www.advaxis.com/clinical-trials).

## About Advaxis, Inc.

Advaxis, Inc., located in Princeton N.J., is a late-stage biotechnology company focused on the discovery, development and commercialization of proprietary *Lm*-based antigen delivery products. These immunotherapies are based on a platform technology that utilizes live attenuated *Listeria monocytogenes* (*Lm*) bioengineered to secrete antigen/adjuvant fusion proteins. These *Lm*-based strains are believed to be a significant advancement in immunotherapy as they integrate multiple functions into a single immunotherapy as they access and direct antigen presenting cells to stimulate anti-tumor T-cell immunity, stimulate and activate the immune system with the equivalent of multiple adjuvants, and simultaneously reduce tumor protection in the tumor microenvironment to enable the T-cells to eliminate tumors. Advaxis has four franchises in various stages of clinical and pre-clinical development: HPV-associated cancers, prostate cancer, neoantigen therapy and hotspot mutation therapy.

## Advaxis Forward-Looking Statement

This press release contains forward-looking statements, including, but not limited to, statements regarding Advaxis' ability to develop and commercialize the next generation of cancer immunotherapies, and the safety and efficacy of Advaxis' proprietary immunotherapies. These forward-looking statements are subject to a number of risks including the risk factors set forth from time to time in Advaxis' SEC filings including, but not limited to, its report on Form 10-K for the fiscal year ended October 31, 2016, which is available at <http://www.sec.gov>.

Any forward-looking statements set forth in this presentation speak only as of the date of this presentation. We do not intend to update any of these forward-looking statements to reflect events or circumstances that occur after the date hereof other than as required by law.

You are cautioned not to place undue reliance on any forward-looking statements.
