Aqua Metals to Host First Quarter 2018 Conference Call on Wednesday, May 9th at 1:30 p.m. PDT

ALAMEDA, Calif., May 01, 2018 (GLOBE NEWSWIRE) -- Aqua Metals, Inc. (NASDAQ:AQMS), ("Aqua Metals" or the "Company"), which is proceeding to commercialize its proprietary electrochemical lead recycling technology called AquaRefining™, will host a conference call on Wednesday, May 9, 2018 at 1:30 p.m. Pacific daylight time (4:30 p.m. Eastern daylight time) to discuss its financial results for the first quarter ended March 31, 2018.

A press release detailing these results will be issued just prior to the call. Aqua Metals management will host the call, followed by a question and answer session. To access the call, please use the following information:

Date: Wednesday, May 9, 2018

Time: 1:30 p.m. Pacific daylight time (4:30 p.m. Eastern daylight time)

Dial-in: 1-855-327-6837

International Dial-in: 1-631-891-4304

Passcode: 10004831

Webcast: <http://public.viavid.com/index.php?id=129640>

A telephone replay will be available approximately two hours after the call and will run through June 9, 2018 by dialing 1-844-512-2921 from the U.S., or 1-412-317-6671 from international locations, and entering replay pin number: 10004831.

The webcast will be available for replay for 60 days on the investor relations section of the company's website at www.aquametals.com.

About Aqua Metals

Aqua Metals, Inc. (NASDAQ:AQMS) is reinventing lead recycling with its patented and patent-pending AquaRefining™ technology. Unlike smelting, AquaRefining is a room temperature, water-based process that is fundamentally non-polluting. These modular systems allow the Company to vastly reduce environmental impact and scale lead acid recycling production capacity both by building its own AquaRefineries and licensing the AquaRefining technology to partners. This meets growing demand for lead to power new applications including stop/start automobile batteries which complement the vehicle's main battery, Internet data centers, alternative energy applications including solar, wind, and grid scale storage. Aqua Metals is based in Alameda, California, and has built its first recycling facility in Nevada's Tahoe Reno Industrial Complex. To learn more, please visit www.aquametals.com.
