Arotech Training and Simulation Division Announces IDIQ Award Valued at up to \$40 Million

ANN ARBOR, Mich., April 20, 2016 /PRNewswire/ -- Arotech Corporation [Nasdaq GM: ARTX] announced that its Training and Simulation Division (ATSD) has received an Indefinite Delivery Indefinite Quantity (IDIQ) award with a potential value of up to \$40M for its MILO Range Training Systems' simulator products. The multiple-award contract is for the provision of law enforcement training simulators and related equipment and services to the U.S. Department of State in support of its Bureau of International Narcotics and Law Enforcement Affairs (INL) training mission. INL works to keep Americans safe at home by countering international crime, illegal drugs, and instability abroad. INL provides training and assistance in all aspects of police, corrections and justice systems tailored to the specific environment, legal framework, and identified requirements of each partner nation. MILO Range Training Systems was one of two awardees following a competitive full and open solicitation. The Period of performance is five years and includes MILO Range Theater multi-screen and MILO Range portable solutions.

"We are thrilled with this award, which solidifies our long standing position as a supplier to the Department of State for our award winning MILO Range Training Systems," commented Robert McCue, MILO Range Training Systems General Manager. "This highly competitive procurement further validates our position as a global leader in the international law enforcement judgmental skills simulator market, and provides a streamlined acquisition process to deliver this important training capability to the various organizations supported by the U.S. Department of State."

About Arotech's Training and Simulation Division

Arotech's Training and Simulation Division (ATSD) provides world-class simulation based solutions. ATSD develops, manufactures, and markets advanced high-tech multimedia and interactive digital solutions for engineering, use-of-force, and operator training simulations for military, law enforcement, security, municipal and private industry personnel. The division's fully interactive operator training systems feature state-of-the-art vehicle simulator technology enabling training in situation awareness, risk analysis and decision-making, emergency reaction and avoidance procedures, conscientious equipment operation, and crew coordination. The division's use-of-force training products and services allow organizations to train their personnel in safe, productive, and realistic environments. The division supplies pilot decision-making support software for the F-15, F-16, F-18, F-22, and F-35 aircraft, simulation models for the ACMI/TACTS air combat training ranges, and Air-Refueling Boom Arm simulators. The division also provides consulting and developmental support for engineering and research simulation solutions.

Arotech's Training and Simulation Division consists of FAAC Incorporated (www.faac.com),

MILO Range Training Systems (www.milorange.com), and Realtime Technologies (www.simcreator.com).

About Arotech Corporation

Arotech Corporation is a leading provider of quality defense and security products for the military, law enforcement and homeland security markets, including multimedia interactive simulators/trainers and advanced zinc-air and lithium batteries and chargers. Arotech operates two major business divisions: Training and Simulation, and Power Systems.

Arotech is incorporated in Delaware, with corporate offices in Ann Arbor, Michigan, and research, development and production subsidiaries in Michigan, South Carolina, and Israel. For more information on Arotech, please visit Arotech's website at www.arotech.com.
