Enrollments for Aspen University's Pre-Licensure BSN program increased sequentially

with the launch of our night/weekend program. Marketing spending for Aspen's (Nursing + Other) unit for the quarter remained in a similar range as the previous two quarters of fiscal year 2019, and on a year-over-year basis increased modestly by approximately 12%. In terms of enrollment center staffing, on a year-over-year basis the Aspen (Nursing + Other) unit remained flat at 49 Enrollment Advisors (EAs), as the year-over-year increase of 21 EAs are all allocated to the three new business units; Aspen Doctoral (6), Aspen Pre-Licensure BSN (4) and USU (11).

The current Marketing Efficiency Ratio (MER = revenue-per-enrollment or LTV/cost-per-enrollment or CAC) for our three degree units² is reflected in the below table:

	Enrollments	Cost-of-Enrollment ³	LTV	MER
Aspen (Nursing + Other)	895	\$ 1,300	\$ 7,350	5.7X

USU (FNP + Other)	251	\$ 1,620	\$ 17,820 ⁴	11.0X

AGI's overall active student body (includes both Aspen University and USU) grew 28% year-over-year from 6,512 to 8,354. Aspen University's total active degree-seeking student body grew 22% year-over-year from 6,066 to 7,393. Aspen's School of Nursing grew 30% year-over-year, from 4,401 to 5,718 active students, which includes 210 active students in the BSN Pre-Licensure program in Phoenix, AZ.

Aspen University students paying tuition and fees through a monthly payment method grew by 25% year-over-year, from 4,194 to 5,259. Those 5,259 students paying through a monthly payment method represent 71% of Aspen University's total active student body.

USU's total active degree-seeking student body grew sequentially from 843 to 961 students or a sequential increase of 14%. USU students paying tuition and fees through a monthly payment method grew from 514 to 602 students sequentially. Those 602 students paying through a monthly payment method represent 63% of USU's total active student body.

Operational Update – Aspen University Pre-Licensure BSN Program:

Aspen University spent ~\$42,000 marketing its new Pre-Licensure BSN program in the Phoenix metro in the months preceding its July, 2018 launch. Since that initial marketing spend, Aspen has delivered 247 enrollments and begun three semesters (July & November – Day program, January – Night/Weekend program) without having spent any additional marketing dollars over the past 6 months. Consequently, the cost of enrollment to date for the pre-licensure BSN program to date has been approximately \$170.

As of January 2019, Aspen will be starting a semester every other month on a go forward basis. Therefore, Aspen has begun marketing again this month to maintain steady

prospective student lead flow and to prepare for the launch of its second campus on the north side of Phoenix in partnership with HonorHealth (the initial semester is currently targeted to begin in September 2019).

Operational Update – USU FNP Program:

USU has successfully enrolled to its target of at least 150 FNP students every other month over the past two enrollment cycles (November 2018 and January 2019 starts), which represents a 100% increase from the previous target of enrolling 75 FNP students every other month. As a result, USU ended the quarter with 803 FNP students, representing 84% of USU's active student body.

“Given that USU's FNP and Aspen's Pre-Licensure BSN program delivers the highest LTV's in AGI's degree portfolio, we will continue to focus the majority of our growth and personnel on these promising businesses. In fact, we estimate that by April 2020 (the end of next fiscal year), USU's FNP student body will grow by approximately 75% to 1,400 students and Aspen's Pre-Licensure BSN student body will grow nearly fivefold to approximately 1,000 students,” said Chairman & CEO, Michael Mathews.
