Mr. Kevin Ma, ATA's Chairman and Chief Executive Officer, stated, "During Fiscal Year 2016, ATA made progress on its strategy of accelerating the growth of its core testing services business, which included restructuring this business into its wholly owned subsidiary ATA Online (Beijing) Education Technology, Co., Ltd. ('ATA Online') and listing it separately on the New Third Board in China. We were pleased to have gained approval and officially list ATA Online's shares on the New Third Board under the stock code 835079 in December 2015. We believe this listing has already increased ATA's brand recognition in the domestic market as demonstrated by our record positive results and new exams successfully administered during the Fiscal Year 2016, including the National Tax Adviser Occupational Qualification ('CTA') exam, Fund Practitioners Certification Exam, National Patent Agent Qualification Exam, and China Merchants Bank's campus recruitment exam. We continue to work on the private placement transaction we announced earlier this year, which we believe will benefit ATA Online in its efforts to increase operating efficiencies, secure new business, and support the Company's overall future growth."

"We delivered approximately 10.3 million billable tests during Fiscal Year 2016, up 17.0% from the 8.8 million delivered in Fiscal Year 2015. This increase was driven by the various new exams I just mentioned, as well as increased exam volumes for the National Unified Certified Public Accountants ('CPA') exam and campus recruitment exams for various HR Select clients. We were pleased to work closely with the China Certified Tax Agents Association on the successful delivery of the first computer-based CTA exam in February 2016. Having achieved a year of record net revenues and billable tests delivered, we remain confident in the superiority of ATA's testing technologies and delivery services, as well as our ability to grow our portfolio of reputable clients and exams."

Operating Review

In Fourth Quarter 2016, ATA delivered a total of 0.9 million billable tests, compared to 1.0 million billable tests in Fourth Quarter 2015. In Fiscal Year 2016, ATA delivered a total of 10.3 million billable tests, compared to 8.8 million in Fiscal Year 2015. The Company had a network of 3,035 authorized test centers throughout China as of March 31, 2016, which the Company believes to be the largest test center network of any commercial testing service provider in China. ATA has delivered approximately 76.3 million billable tests since it began operations in 1999.

GAAP Results

Fiscal Year 2016

For Fiscal Year 2016, ATA's total net revenues increased 19.1% to a record RMB417.1 million (US\$64.7 million), from RMB350.2 million in Fiscal Year 2015, primarily as a result of increased revenue contributions from the testing services business.

Net revenues from the testing services business increased 20.6% to RMB384.8 million (US\$59.7 million) in Fiscal Year 2016, from RMB319.1 million in Fiscal Year 2015, primarily due to increased revenue contributions from new exams ATA delivered throughout the year, including the first computer-based CTA exam, the Fund Practitioners Certification Exam and National Patent Agent Qualification Exam. Exam volume growth for the CPA exam and increased revenues from new HR Select clients contributed to top line growth.

Net revenues from test preparation and training solutions decreased to RMB4.9 million (US\$0.8 million) in Fiscal Year 2016, compared to RMB5.7 million in Fiscal Year 2015.

Other revenues were RMB27.4 million (US\$4.3 million) in Fiscal Year 2016, compared to RMB25.4 million in Fiscal Year 2015.

Gross profit for Fiscal Year 2016 increased 17.7% to RMB209.1 million (US\$32.4 million), from RMB177.6 million in Fiscal Year 2015. Gross margin was 50.1% in Fiscal Year 2016, compared to 50.7% in Fiscal Year 2015.

Operating expenses for Fiscal Year 2016 increased 6.4% to RMB157.4 million (US\$24.4 million) from RMB147.9 million in Fiscal Year 2015, primarily due to increased professional service expenses related to ATA Online's New Third Board listing and increased share-based compensation expenses (compared to those in the prior-year period as a result of the former CEO's resignation).

Income from operations in Fiscal Year 2016 increased 62.9% to RMB51.7 million (US\$8.0 million), from RMB31.8 million in Fiscal Year 2015.

Net income for Fiscal Year 2016 increased 13.0% to RMB26.1 million (US\$4.0 million), compared to RMB23.1 million in Fiscal Year 2015, which was primarily due to the increased income from operations offsetting by an increased deferred tax asset valuation allowance resulting from the restructuring of ATA's testing services business into its wholly owned subsidiary ATA Online in connection with the New Third Board listing, as well as losses resulting from ATA's developing investee companies focused on the education and recruitment markets. For Fiscal Year 2016, basic and diluted earnings per common share were both RMB0.57 (US\$0.09), and basic and diluted earnings per ADS were both RMB1.14 (US\$0.18).

Fourth Quarter 2016

For Fourth Quarter 2016, ATA's total net revenues increased 11.0% to RMB44.7 million (US\$6.9 million), from RMB40.3

million in Fourth Quarter 2015, primarily due to increased revenue contributions by private sector clients from the testing services business.

Gross profit for Fourth Quarter 2016 was RMB20.9 million (US\$3.2 million), a 6.9% increase from RMB19.5 million in Fourth Quarter 2015. Gross margin was 46.7% in Fourth Quarter 2016, compared to 48.5% in Fourth Quarter 2015. The decrease was primarily due to a change in revenue mix.

Loss from operations in Fourth Quarter 2016 was RMB14.8 million (US\$2.3 million), compared to RMB15.8 million in Fourth Quarter 2015.

Net loss for Fourth Quarter 2016 was RMB15.4 million (US\$2.4 million), compared to RMB15.0 million in Fourth Quarter 2015. For Fourth Quarter 2016, basic and diluted losses per common share were both RMB0.34 (US\$0.05), compared to RMB0.33 in Fourth Quarter 2015. Basic and diluted losses per ADS were both RMB0.68 (US\$0.10) in Fourth Quarter 2016, compared to RMB0.66 in Fourth Quarter 2015.

Non-GAAP Measures

Adjusted net income for Fiscal Year 2016, which excludes share-based compensation expense and foreign currency exchange loss (non-GAAP), increased 17.6% to RMB36.7 million (US\$5.7 million) from RMB31.2 million in the prior fiscal year. Basic and diluted earnings per common share excluding share-based compensation expense and foreign currency exchange loss (non-GAAP) for Fiscal Year 2016 were both RMB0.80 (US\$0.12).

Basic and diluted earnings per ADS excluding share-based compensation expense and foreign currency exchange loss (non-GAAP) for Fiscal Year 2016 were both RMB1.60 (US\$0.24), compared to RMB1.34 in the prior fiscal year.

Please see the note about non-GAAP measures and the reconciliation table at the end of this press release.

For Fiscal Year 2017, ATA expects net revenues of between RMB420.0 million and RMB440.0 million and non-GAAP net income of between RMB27.0 million and RMB37.0 million, which takes into account the operating results of ATA's joint venture and associated companies focused on the education and recruitment markets, all of which are at an early stage of business development.

Mr. Ma concluded, "ATA's outlook for Fiscal Year 2017 is optimistic as we believe we can take advantage of the positive momentum built by the various new clients with whom we have begun working in Fiscal Year 2016. While the loss of the SAC exam in calendar years 2016-2017 will have some impact on our business (contributed net revenues of approximately RMB67.0 million in Fiscal Year 2016), ATA is focused on continuing to build its testing services business relationships with reputable organizations in China. As we continue to move forward on our New Third Board efforts, we are confident that potential clients in China will increasingly recognize ATA as the leader in its industry and be more eager to engage in business with ATA. In addition, the Company has begun exploring growth opportunities in the K-12 education assessment and recruitment sectors that we believe will leverage our core competency in advanced testing and assessment technologies. As business plans are still in their preliminary stages, we look forward to sharing more information on these ventures with investors in the coming months."

These are ATA's current projections, which are subject to change. You are cautioned that the operating results in Fourth Quarter 2016 and Fiscal Year 2016 are not necessarily indicative of operating results for any future periods.

Currency Convenience Translation

The Company's financial information is stated in Renminbi ("RMB"), the currency of the People's Republic of China. The translation of RMB amounts for Fourth Quarter 2016 and Fiscal Year 2016 ended March 31, 2016, into U.S. dollars are included solely for the convenience of readers and have been made at the rate of RMB6.4480 to US\$1.00, the noon buying rate as of March 31, 2016, in New York for cable transfers in RMB per U.S. dollar as set forth in the H.10 weekly statistical release of the Federal Reserve Board. Such translations should not be construed as representations that RMB amounts could be converted into U.S. dollars at that rate or any other rate, or to be the amounts that would have been reported under U.S. GAAP.

About Non-GAAP Financial Measures

To supplement ATA's consolidated financial information presented in accordance with U.S. generally accepted accounting principles ("GAAP"), ATA uses the following non-GAAP financial measures: net income (loss) excluding share-based compensation expense and foreign currency exchange gain or loss, and basic and diluted earnings (losses) per common share and ADS excluding share-based compensation expense and foreign currency exchange gain or loss.

The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. ATA believes these non-GAAP financial measures provide meaningful supplemental information about its performance by excluding share-based compensation expense and foreign currency exchange gains or losses, which may not be indicative of its operating performance.

ATA believes that both management and investors benefit from these non-GAAP financial measures in assessing its performance and when planning and forecasting future periods. These non-GAAP financial measures also facilitate management's internal comparisons to ATA's historical performance. ATA computes its non-GAAP financial measures using a consistent method from period to period. ATA believes these non-GAAP financial measures are useful to investors in allowing for greater transparency with respect to supplemental information used by management in its financial and operational decision making. A limitation of using non-GAAP net income (loss) excluding share-based compensation expense and foreign currency exchange gains or losses and basic and diluted earnings (losses) per common share and per ADS excluding share-based compensation expense and foreign currency exchange gain or loss is that share-based compensation charges and foreign currency exchange gains or losses have been, and are expected to continue to be for the foreseeable future, a significant recurring expense in ATA's business.

Management compensates for these limitations by providing specific information regarding the GAAP amounts excluded from each non-GAAP measure. The table captioned "Unaudited Reconciliations of Non-GAAP Measures to the Most Comparable GAAP Measures" shown at the end this news release has more details on the reconciliations between GAAP financial measures that are most directly comparable to the non-GAAP financial measures used by ATA.
