Cardax Reports Q2 2018 Results

ZanthoSyn® Sales 4x Higher Than Q2 2017

HONOLULU, Aug. 13, 2018 /PRNewswire/ -- Cardax, Inc. (OTCQB: CDXI) today announced its results for the second quarter of 2018. Revenues from sales of ZanthoSyn®, its premium astaxanthin dietary supplement for inflammatory health and longevity, increased more than four times, to \$272,049 in Q2 2018 from \$66,237 in Q2 2017. Revenues for the six-months ended June 30, 2018 also grew strongly to \$585,359 from \$174,227 for the same period in 2017.

The results primarily reflect sales to GNC driven by the strong sell-through rate of ZanthoSyn® in Hawaii as well as an accelerating sales trend in California, Nevada, and New York. Sales were supported by over 1,000 high quality interactions with physicians and other health care professionals at conferences, meetings, and continuing medical education events.

"We are very pleased to see continuing sales growth in the selected U.S. markets where we have focused our sales and marketing efforts thus far," said David G. Watumull, Cardax President and CEO.

The Company's two-pronged sales and marketing strategy combines:

- **Physician outreach and education**, where ZanthoSyn® is positioned as the first safe, physician friendly, anti-inflammatory for health and longevity, and GNC serves as a convenient and credible distribution channel for physicians recommending ZanthoSyn®.
- **GNC store outreach, education, and in-store sales support**, which builds on the ability to utilize ZanthoSyn® as a foundation of health, wellness, and performance regimens.

In addition to these sales and marketing efforts, the Company also continues to build its intellectual property portfolio and advance its orphan drug and clinical development programs.

Please refer to the [Quarterly Report on Form 10-Q](#) filed today by the Company for additional information.

About Cardax

Cardax devotes substantially all of its efforts to developing and commercializing dietary supplements and pharmaceuticals. Cardax is initially focusing on astaxanthin, which is a powerful and safe naturally occurring anti-inflammatory that supports health and longevity.* The safety and efficacy of Cardax's products have not been directly evaluated in clinical trials or confirmed by the FDA.

About ZanthoSyn®

ZanthoSyn® is a physician recommended anti-inflammatory supplement for health and longevity that features astaxanthin with enhanced absorption and purity.* ZanthoSyn® is sold online and in GNC stores. ZanthoSyn® contains astaxanthin, which is Generally Recognized as Safe (GRAS) according to FDA regulations.

About Astaxanthin

Astaxanthin is a clinically studied compound with safe anti-inflammatory activity that supports joint health, cardiovascular health, metabolic health, liver health, and longevity.*
