CES Synergies, Inc. Reports First Quarter Results -- Gross Margin Improves Over Same Quarter Last Year

CRYSTAL SPRINGS, FL -- (Marketwired) -- 05/14/15 -- **CES Synergies, Inc.** (OTCQB: CESX) announced results for the quarter ended March 31, 2015.

Revenues for the three months ended March 31, 2015 were \$3.5 million, a 9% decrease as compared to revenues of \$3.8 million in the comparable 2014 period. During the first quarter of 2015, the remediation segment contributed \$2 million to consolidated revenue while the demolition segment contributed \$1.4 million. Gross margin was 19% in the first quarter compared to 17% in the first quarter of 2014. The Company reported an operating loss of \$0.7 million, or a loss of \$0.02 per basic and diluted share, as compared to an operating loss of \$0.5 million in the first quarter of last year.

The decrease in revenue in whole can be attributed to over \$3.0 million in Federal contracts being delayed into the second or third quarters of 2015. Of note, revenue in the remediation segment increased more than \$1.1 million over the same period last year.

John Tostanoski, Chief Executive Officer of CES Synergies, commented, "While historically, the first quarter has always been difficult in our industry, we were pleased to achieve increased gross margin in the quarter, primarily related to a cost reduction program initiated at the beginning of the year. We believe the revenue increase in our remediation segment over the previous year will continue based on the contract backlog we are seeing. During the quarter, we made strategic investments in the business to drive our long term growth, including adding improved project software capabilities and enhancing our equipment, personnel and facilities. These enhancements have significantly improved our positioning to see a broader scope of opportunities."

Mr. Tostanoski continued, "We are seeing a continued increase in construction activity and our pipeline is robust. Examples of contracts secured during the first quarter include a contract for demolition and remediation work at NAS Jacksonville and a demolition and remediation project on residence towers at Florida State University. Our goal is to build upon our positioning as an established leader in the region and contracting selectively to grow geographically."

About CESX: CES Synergies, Inc., through its subsidiary, Cross Environmental Services, Inc., is a specialty environmental services company providing quality environmental

contracting solutions, demolition and remediation services to commercial and industrial customers, as well as federal, state and municipal entities. More information may be found at the Company's website: www.crossenv.com.
