# **Energous to Present and Conduct One-on-One Meetings at Oppenheimer 19th Annual Technology, Internet & Communications Conference**

SAN JOSE, CA -- (Marketwired) -- 08/09/16 -- Energous Corporation ("Energous®" or "the Company") (NASDAQ: WATT), the developer of WattUp®, a revolutionary wire-free charging technology that provides over-the-air power at a distance, today announced that it will present a company overview at the Oppenheimer 19<sup>th</sup> Annual Technology, Internet & Communications Conference on Wednesday, August 10, 2016 at 1:45 p.m. ET at the Four Seasons Hotel in Boston. The company also will conduct one-on-one meetings with investors throughout the day.

The presentation will be broadcast live on the Energous website at [Energous.com](http://Energous.com), where it will be archived for 90 days.

## ***About Energous Corporation***

Energous Corporation is the developer of WattUp® -- an award-winning, wire-free charging technology that will transform the way consumers and industries charge and power electronic devices at home, in the office, in the car and beyond. WattUp is a revolutionary radio frequency (RF) based charging solution that delivers intelligent, scalable power via radio bands, similar to a Wi-Fi router. WattUp differs from current wireless charging systems in that it delivers contained power, at a distance, to multiple devices -- thus resulting in a wire-free experience that saves users from having to remember to plug in their devices.
