# Sea of Green Systems Announces Distribution Agreement with Sublicensee and Florida's Largest Custom Fertilizer Dealer

## Wedgworth's Inc. Named as Exclusive Distributor in Florida for CAVISONIX(R) Treated Fertilizers by GCO

STUART, FL -- (Marketwired) -- 08/23/17 -- Sea of Green Systems, Inc. ("SOGS"), a subsidiary of Ecosphere Technologies, Inc. (OTCQB: ESPH), today announced that its sublicensee in the agricultural industry, Gulf Coast Organics ("GCO"), has signed an agreement with Wedgworth's, Inc. ("Wedgworth's"), to be the exclusive distributor in the State of Florida for its Amp Agronomy™ plant nutritional line. Recognized as Florida's largest custom fertilizer dealer since 1932, Wedgworth's provides custom blended agricultural plant nutrient products throughout the State of Florida to help farms grow and prosper.

CAVISONIX®, developed by SOGS and Ecosphere Technologies, uses ultrasonic cavitation to treat fertilizers for increased plant availability and was created as a result of Ecosphere's long-standing history and intellectual property portfolio of treating liquids using ultrasonic cavitation. After two years of independent lab reports and successful field-trials on numerous crops, including watermelons, sod/turf grass, blueberries, corn, soybeans and more, SOGS is pleased to begin executing on its business model of licensing its CAVISONIX® technology in the commercial agriculture industry.

### **CAVISONIX® Features & Benefits include:**

- Reduced particle size
- Reduced surface tension
- Increased rate of chelation
- Increased solubility
- Reduced precipitation
- Increased plant availability
- Less nutrients required
- Increased crop quality, health & yield
- Reduced environmental footprint

Launched in 2015 between GCO and Sod Solutions, Inc. ("Sod Solutions"), an international turf grass and research firm, Amp Agronomy™ is a product line of specialty fertilizers designed to maximize agriculture products and yields using SOGS proprietary

CAVISONIX® technology. Marketed by the partnership under the Amp Agronomy™ and Catalyst Technology™ trademarks, Amp Agronomy™ represents a complete line of foliar products and programs available to fit a wide variety of crops.

"As leaders in the Florida farming industry, selecting Wedgworth's as our exclusive distributor in the state was a perfect fit for Amp Agronomy™," said Patrick Chapman, President of GCO.

Corey McGuire, Chief Executive Officer of Sea of Green Systems stated, "We are excited to announce the relationships that have been developed over the past three years with world-class partners, such as GCO, Sod Solutions and now Wedgworth's. This announcement marks the beginning of a series of partnerships that will be formed over the coming years to improve the way fertilizers are delivered to crops throughout the world."
