## ***Executive Comments***

"Revenue in the second quarter increased on both a sequential and year-over-year basis," stated Todd Cravens, Galaxy's President and CEO. "However, as was the case in the first quarter, operating expense increases have moderated in 2018 as compared to 2017. The result was year-over-year EBITDA growth of 49%."

"We had a net loss in the quarter and the first half due primarily to a loss on extinguishment of debt related to the refinancing we completed in April," stated Harry Hagerty, Galaxy's CFO. "That refinancing also led to meaningfully lower interest expense in Q2 2018 quarter. We were cash flow positive in Q2, adding \$313K in cash and equivalents (including restricted cash). Finally, we were in compliance with our debt covenants as of June 30, 2018."
