Olin Brass Earns 2018 ENERGY STAR® Partner of the Year Award

SCHAUMBURG, Ill.--(BUSINESS WIRE)-- Global Brass and Copper Holdings, Inc. is proud to announce that its subsidiary GBC Metals, LLC doing business as Olin Brass received the 2018 ENERGY STAR® Partner of the Year Award for its outstanding efforts in Energy Management. Olin Brass's accomplishments were recognized by the U.S. Environmental Protection Agency and the U.S. Department of Energy at a ceremony in Washington, D.C. on April 20, 2018.

"For the second year in a row, Olin Brass is honored to receive the Energy Star Partner of the Year award. The Olin Brass energy conservation journey began in 2011. By following the ENERGY STAR program guidelines, Olin Brass has saved over \$6 Million and 367,000 MMBTU's. This award highlights the continued effort of our team's focus to reduce our environmental footprint and increase our energy efficiency. To not only sustain the 2016 achievement, but show year over year improvement in 2017 is a remarkable accomplishment," said Dale Taylor, President, Olin Brass.

"The 2018 ENERGY STAR Partners of the Year have demonstrated real leadership, showing how American families and businesses can save energy, save money, and reduce air emissions," said Bill Wehrum, EPA Assistant Administrator for Air and Radiation.

In 2016 alone, ENERGY STAR certified products, homes, buildings, and plants helped Americans save over \$30 billion in energy costs and approximately 400 billion kilowatt-hours of electricity and while achieving broad emissions reductions.

About Global Brass and Copper

Global Brass and Copper Holdings, Inc. is a leading, value-added converter, fabricator, processor, and distributor of specialized non-ferrous products in North America. We engage in metal melting and casting, rolling, drawing, extruding, welding, stamping, and coating to fabricate finished and semi-finished alloy products from processed scrap, virgin metals, and other refined metals. Our products include a wide range of sheet, strip, foil, rod, tube, painted and fabricated metal component products. Our products are used in a variety of applications across diversified markets, including the building and housing, munitions, automotive, transportation, coinage, electronics/electrical components, industrial machinery and equipment and general consumer markets.

About ENERGY STAR

ENERGY STAR® is the simple choice for energy efficiency. For over 25 years, EPA's ENERGY STAR program has been America's resource for saving energy and protecting the environment. Join the millions already making a difference at energystar.gov. More background information about ENERGY STAR can be found at energystar.gov/about and energystar.gov/numbers.

Thousands of industrial, commercial, utility, state, and local organizations—including more than 40 percent of the Fortune 500®—rely on their partnership with the U.S. Environmental Protection Agency (EPA) to deliver cost-saving energy efficiency solutions. Together, since 1992, ENERGY STAR and its partners have helped save American families and businesses over \$450 billion and over 3.5 trillion kilowatt-hours of electricity while also achieving broad emissions reductions—all through voluntary action.
