About Ideal Power Inc.

Ideal Power Inc. (NASDAQ: IPWR) is a technology company dedicated to advancing electric power conversion. The company has developed a novel, patented power conversion technology called Power Packet Switching Architecture™ (PPSA™). PPSA™ improves the

size, cost, efficiency, flexibility and reliability of electronic power converters. PPSA™ can scale across several large and growing markets, including solar PV, variable frequency drives, battery energy storage, mobile power and microgrids, and electric vehicle fast charging. The Company is also developing and has patented a bi-directional, bi-polar junction transistor (B-TRAN™) which has the potential to dramatically increase bi-directional power switching efficiency and power density. Ideal Power employs a capital-efficient business model which enables the company to address several product development projects and markets simultaneously.
