### ***Financial results for the three-month period ended December 31, 2016***

Net revenues for the fourth quarter of 2016, were \$19.7 million compared to \$21.0 million for the three months ended December 31, 2015. Revenue in our Partner Network was \$9.8 million in the fourth quarter of 2016 compared to \$6.2 million in the three months that ended

December 31, 2015, a 58% increase. Strong demand in our partner ads operations as well as greater acceptance by publishers of our SearchLinks technology are the primary reasons for the increase. Revenue in the Owned and Operated Network was \$9.8 million in the fourth quarter of 2016 compared to \$14.8 million in the three months that ended December 31, 2015, a 34% decrease. The lower revenue in the Owned & Operated Network in the fourth quarter of 2016 compared to the same quarter of 2015 was due in part to a reduction in marketing spend activity while new marketing technology was being developed as a means to increase margins in the segment.

Operating expenses were approximately \$11.9 million in the fourth quarter of 2016 compared to \$15.6 million in the same quarter of 2015, a 24% decrease. The lower operating expense in the current year fourth quarter compared to the prior year quarter is primarily due to lower marketing costs.

For the quarter ended December 31, 2016, GAAP net loss was \$309 thousand or \$0.01 net loss per share compared to \$617 thousand net income, or \$0.03 net income per diluted share, for the quarter ended December 31, 2015. Adjusted EBITDA in the period was \$612 thousand or \$0.02 per share.

#### ***Financial results for the year ended December 31, 2016***

Net revenues for the year ended December 31, 2016, were \$71.5 million compared to \$70.4 million for the year ended December 31, 2015. Revenue in our Partner Network was \$26.0 million in 2016 compared to \$30.3 million in the year ended December 31, 2015, a 14% decrease. The lower revenue this year compared to the prior year is due in part to lower advertiser demand we experienced beginning in the second quarter of 2016, but also as a result of changes to revenue reporting between segments that occurred in 2015. Revenue in the Owned and Operated Network was \$45.5 million in 2016 compared to \$40.1 million in the year ended December 31, 2015, a 13% increase. The higher revenue in the Owned & Operated Network this year compared to last year occurred in the first half of the year and is primarily due to additional advertisements served to a growing user base of our owned and operated web properties. The increase in advertisements served and users was due in part to increased marketing of our owned and operated web properties and expanded verticals and content.

Operating expenses increased from \$44.6 million in the year ended December 31, 2015 to \$51.0 million in 2016, a 14% increase. Though all categories of operating expenses increased in 2016 over 2015, the largest increase came from marketing costs during the first half of 2016.

For the year ended December 31, 2016, GAAP net loss was \$773 thousand or \$0.03 net loss per share compared to \$2.3 million net income, or \$0.10 net income per diluted share for the year ended December 31, 2015. Adjusted EBITDA for the year 2016 was \$2.6 million or \$0.11 per share.

#### ***Balance Sheet as of December 31, 2016***

At December 31, 2016, cash and cash equivalents totaled \$3.9 million and there was no bank debt. The current ratio improved from .88 at December 31, 2015 to .99 at December 31, 2016.

**Non-GAAP Financial Measures**

In addition to disclosing financial results in accordance with United States generally accepted accounting principles ("GAAP"), our earnings release contains the non-GAAP financial measure "Adjusted EBITDA."

Adjusted EBITDA is not a measure of performance defined in accordance with GAAP. However, management believes that Adjusted EBITDA is useful to investors in evaluating the Company's performance because Adjusted EBITDA is a commonly used financial analysis tool for measuring and comparing companies in the Company's industry in areas of operating performance.

Management believes that the disclosure of Adjusted EBITDA offers an additional view of the Company's operations that, when coupled with the GAAP results and the reconciliation to GAAP net (loss) income, provides a more complete understanding of the Company's results of operations and the factors and trends affecting the Company's business.

**Reconciliation of (Loss) Net Income from Continuing Operations before Taxes to Adjusted EBITDA**

We present Adjusted EBITDA as a supplemental measure of our performance. We defined Adjusted EBITDA as net income (loss) from continuing operations before taxes plus (i) interest expense, net, (ii) depreciation, (iii) amortization, and (iv) stock-based compensation. These further adjustments are itemized above. You are encouraged to evaluate these adjustments and the reasons we consider them appropriate for supplemental analysis. In evaluating Adjusted EBITDA, you should be aware that in the future we may incur expenses that are the same or similar to some of the adjustments in the presentation. Our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.
