- Reports record second quarter revenue of \$130.7 million
- Reports second quarter GAAP loss per share of \$0.08 and non-GAAP earnings per share of \$0.35
- Updates annual revenue and earnings guidance for 2018

PLEASANTON, Calif., July 25, 2018 (GLOBE NEWSWIRE) -- **Natus Medical Incorporated** (NASDAQ:BABY) today announced financial results for the three months and full year ended June 30, 2018.

For the second quarter ended June 30, 2018, the Company reported revenue of \$130.7 million, an increase of 7.0% compared to \$122.2 million reported for the second quarter 2017. GAAP gross profit margin was 57.4% vs. 54.1% in the second quarter 2017. GAAP net loss was \$2.6 million, or \$0.08 per share, compared with GAAP net loss of \$5.0 million, or \$0.15 per share in the second quarter 2017.

Non-GAAP earnings per diluted share was \$0.35 for the second quarter 2018, compared to \$0.34 in the second quarter 2017. Non-GAAP net income was \$11.6 million for the second quarter 2018 compared to the prior year's second quarter non-GAAP net income of \$11.2 million. Non-GAAP gross profit margin was 62.1% vs. 60.6% reported for the second quarter of 2017.

For the six months ended June 30, 2018, the Company reported revenue of \$259.3 million, an increase of 5.0% compared to \$246.9 million reported for the same period in 2017. GAAP gross profit margin was 56.6% vs. 53.8% reported for the same period in 2017. GAAP net loss was \$5.7 million, or \$0.17 per share, compared with GAAP net loss of \$4.7 million, or \$0.14 per share in the same period in 2017.

Non-GAAP earnings per diluted share was \$0.59 for the first six months in 2018, compared to \$0.64 in the same period in 2017. The Company reported non-GAAP net income of \$19.6 million for the six months ended June 30, 2018, compared to the prior year's non-GAAP net income of \$21.0 million.

The Company repurchased \$0.9 million of its stock and repaid \$10.0 million of outstanding debt during the second quarter of 2018.

"Our non-GAAP earnings per share considerably exceeded our guidance at 35 cents. Our improved margins reflect strength in our neuro business where organic revenue grew 2% in the quarter. The quarter's results also reflect meaningful progress in the integration of Otometrics and solid profitability from our newborn care business," said Jonathan Kennedy, President and Chief Executive Officer of Natus.

"Our updated outlook reflects our assessment of the effects of potentially shifting seasonality and global trade uncertainty, which affects our visibility into second half results," Kennedy continued.

#### **Financial Guidance**

For the third quarter of 2018, the Company provided revenue guidance to \$131.0 million to \$135.0 million and non-GAAP earnings per share guidance of \$0.40 to \$0.44.

For the full year 2018, the Company updated its revenue guidance to \$525.0 million to \$535.0 million from \$535.0 million to \$540.0 million and updated its non-GAAP earnings per share guidance to \$1.50 to \$1.60 from \$1.60 to \$1.65.

The Company's non-GAAP earnings per share guidance excludes charges for amortization expense associated with intangible assets from prior acquisitions, certain other expenses, and related tax effects, which the Company expects to be approximately \$8.9 million and \$47.3 million for the third quarter 2018 and full year, respectively, and which the Company expects will reduce GAAP earnings per share by approximately \$0.21 and \$1.15 for the respective periods.

#### **Use of Non-GAAP Financial Measures**

The Company presents in this release its non-GAAP net income, non-GAAP earnings per share, non-GAAP gross margin and non-GAAP operating margin results which exclude amortization expense associated with certain acquisition-related intangibles, restructuring charges, certain discrete items, direct costs of acquisitions, and the related tax effects. A reconciliation between non-GAAP and GAAP financial measures is included in this press release.

The Company believes that the presentation of results excluding these charges or gains provides meaningful supplemental information to both management and investors that is indicative of the Company's core operating results and better reflects the ongoing economics of the Company's operations. The Company believes these non-GAAP financial measures facilitate comparison of operating results across reporting periods.

Specifically, the Company excludes the following charges, gains, and their related tax effects in the calculation of non-GAAP net income, non-GAAP earnings per share and non-GAAP operating expense and excludes all but restructuring charges from the calculation of non-GAAP gross margin: 1) Non-cash amortization expense associated with certain acquisition-related intangibles. The charges reflect an estimate of the cost of acquired intangible assets over their estimated useful lives. 2) Restructuring charges. The Company has over time completed multiple acquisitions of other companies and businesses. Following an acquisition the Company will, as it determines appropriate, initiate restructuring events to eliminate redundant costs. Restructuring expenses, which are excluded in the non-GAAP items, are exclusively related to permanent reductions in our workforce and redundant facility closures. 3) Certain discrete items. These items represent significant infrequent charges or gains that management believes should be viewed outside of normal operating results, and each significant discrete transaction is evaluated to determine whether it should be excluded from non-GAAP reporting. These

items are specifically identified when they occur. 4) Direct costs of acquisitions. These are direct acquisition-related costs that occur when the Company makes an acquisition, such as professional fees, due diligence costs, and earn-out adjustments.

The Company applies GAAP methodologies in computing its non-GAAP tax provision by determining the annual expected effective tax rate after taking into account items excluded for non-GAAP financial reporting purposes. The Company's non-GAAP tax expense and its non-GAAP effective tax rate are generally higher than its GAAP tax expense and GAAP effective tax rate because the income subject to taxes would be higher due to the effect of the expenses excluded from non-GAAP financial reporting. The nature of each quarterly discrete transaction will be evaluated to determine whether it should be excluded from non-GAAP reporting.

The Company's management uses these non-GAAP financial measures in assessing the Company's performance and when planning, forecasting, and analyzing future periods and the Company believes that investors also benefit from being able to refer to these non-GAAP financial measures along with the GAAP operating results. These non-GAAP financial measures also facilitate management's internal comparisons to the Company's historical performance. The non-GAAP financial measures disclosed by the Company should not be considered a substitute for or superior to financial measures calculated in accordance with GAAP, and the financial results calculated in accordance with GAAP and reconciliations to those financial statements should be carefully evaluated.

#### **Forward-Looking Statements**

This press release contains forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995, particularly statements regarding the

expectations, beliefs, plans, intentions and strategies of Natus. These forward-looking statements include statements regarding the anticipated revenue and GAAP and non-GAAP earnings per share for the third quarter and full year 2018 and the impact of amortization expense associated with acquisition-related intangible assets, certain other expenses, and related tax effects. These statements relate to current estimates and assumptions of our management as of the date of this press release and involve known and unknown risks, uncertainties and other factors that may cause actual results, levels of activity, performance, or achievements to differ materially from those expressed or implied by the forward-looking statements. Forward-looking statements are only predictions and the actual events or results may differ materially. Natus cannot provide any assurance that its future results or the results implied by the forward-looking statements will meet expectations. Our future results could differ materially due to a number of factors, including the effects of competition, our ability to successfully integrate and achieve our profitability goals from recent acquisitions, the demand for our products and services, the impact of adverse global economic conditions and changing governmental regulations, including foreign exchange rate changes, on our target markets, our ability to expand our sales in international markets, our ability to maintain current sales levels in a mature domestic market, our ability to control costs, risks associated with bringing new products to market, and our ability to fulfill product orders on a timely basis. Natus disclaims any obligation to update information contained in any forward looking statement.

More information about potential risk factors that could affect the business and financial results of Natus is included in Natus' annual report on Form 10-K for the year ended December 31, 2017, and its subsequent quarterly reports on Form 10-Q and in other reports filed from time to time by Natus with the U.S. Securities and Exchange Commission.
