Oncolytics Biotech® Inc. Announces Second Quarter 2012 Results

CALGARY, Aug. 2, 2012 /PRNewswire/ - Oncolytics Biotech Inc. (TSX:ONC, NASDAQ:ONCY) ("Oncolytics" or the "Company") today announced its financial results and operational highlights for the quarter ended June 30, 2012.

"Early in the quarter, we announced that we had completed enrollment in the first, 80-patient stage of our Phase III trial in head and neck cancers," said Dr. Brad Thompson, President and CEO of Oncolytics. "We continued to make progress on this key clinical initiative during the quarter with our independent Data Monitoring Committee recommending the trial proceed based on a review of the safety data. We continue to await the results of an ongoing data review which will enable us to determine the next steps for the study."

Selected Highlights

Since March 31, 2012, the Company has made a number of significant announcements:

Clinical Trial Program

- Completion of enrollment in the first, 80-patient stage of its Phase III clinical trial examining REOLYSIN® in combination with paclitaxel and carboplatin in patients with platinum-refractory head and neck cancers (REO 018);
- Review by Company's independent Data Monitoring Committee (DMC) of the safety data for the first stage of the Company's Phase III trial in head and neck cancers and received a recommendation that enrollment continue in the study while awaiting the ongoing data review;
- Entry into an agreement whereby the NCIC Clinical Trials Group (CTG) at Queen's University in Kingston, Ontario, will sponsor and conduct a randomized Phase II study of REOLYSIN in patients with advanced or metastatic colorectal cancer enrolling up to 100 patients;
- Entry into an agreement whereby the NCIC CTG will sponsor and conduct a randomized Phase II study of REOLYSIN in patients with advanced or metastatic non-small cell lung cancer enrolling up to 150 patients;
- Entry into an agreement whereby the NCIC CTG will sponsor and conduct a randomized Phase II study of REOLYSIN in patients with advanced or metastatic breast cancer enrolling up to 100 patients; and

Clinical Trial Results

- Publication of a paper entitled "Cell Carriage, Delivery, and Selective Replication of an Oncolytic Virus in Tumor in Patients," in the June 13, 2012 issue of the journal Science Translational Medicine (Vol. 4 Issue 138 138ra77), covering findings from a U.K. translational clinical trial (REO 013) investigating intravenous administration of REOLYSIN in patients with metastatic colorectal cancer prior to surgical resection of liver metastases. The researchers found that intravenously-administered reovirus could specifically target and infect metastatic liver tumors in 90% of the patients, even though all patients treated had had a pre-existing immunity to the virus.

About Oncolytics Biotech Inc.

Oncolytics is a Calgary-based biotechnology company focused on the development of oncolytic viruses as potential cancer therapeutics. Oncolytics' clinical program includes a variety of human trials including a Phase III trial in head and neck cancers using REOLYSIN, its proprietary formulation of the human reovirus. For further information about Oncolytics, please visit: www.oncolyticsbiotech.com.

This press release contains forward-looking statements, within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements, including the Company's belief as to the potential of REOLYSIN as a cancer therapeutic; the Company's expectations as to the success of its research and development programs in 2012 and beyond, the Company's planned operations, the value of the additional patents and intellectual property; the Company's expectations related to the applications of the patented technology; the Company's expectations as to adequacy of its existing capital resources; the design, timing, success of planned clinical trial programs; and other statements related to anticipated developments in the Company's business and technologies involve known and unknown risks and uncertainties, which could cause the Company's actual results to differ materially from those in the forward-looking statements. Such risks and uncertainties include, among others, the availability of funds and resources to pursue research and development projects, the efficacy of REOLYSIN as a cancer treatment, the success and timely completion of clinical studies and trials, the Company's ability to successfully commercialize REOLYSIN, uncertainties related to the research and development of pharmaceuticals, uncertainties related to the regulatory process and general changes to the economic environment. Investors should consult the Company's quarterly and annual filings with the Canadian and U.S. securities commissions for additional information on risks and uncertainties relating to the forward-looking statements. Investors are cautioned against placing undue reliance on forward-looking statements. The Company does not undertake to update these forward-looking statements, except as required by applicable laws.
