Oncolytics Biotech® Inc. Announces 2016 First Quarter Results

CALGARY, May 6, 2016 /PRNewswire/ - Oncolytics Biotech® Inc. (TSX: ONC) (OTCQX: ONCYF) (FRA: ONY) ("Oncolytics" or the "Company") today announced its financial results and operational highlights for the first quarter ended March 31, 2016.

"We recently reported data from two sponsored, randomized Phase 2 studies, highlighting reduced tumor burden in ovarian cancer and improved longer term survival in pancreatic cancer," said Dr. Brad Thompson. "The data from these studies will be very useful in identifying potential indications and study designs that we could advance into later stage studies in the future."

Selected Highlights

Since January 1, 2016, selected highlights announced by the Company include:

Clinical Program

- Treatment of the first patients in a Phase Ib study of pembrolizumab (KEYTRUDA®) in combination with REOLYSIN® and chemotherapy in patients with advanced pancreatic adenocarcinoma, the Company's first trial examining REOLYSIN® in combination with a checkpoint inhibitor;
- Updated results from a randomized Phase 2 clinical trial of its lead product, REOLYSIN®, in combination with paclitaxel in patients with ovarian cancer (GOG-0186H), where an intent-to-treat analysis, as assessed by CA-125 antigen levels, showed statistically significant reduction in tumor burden;
- Updated results from a randomized Phase 2 clinical trial of its lead product, REOLYSIN®, in combination with carboplatin and paclitaxel in patients with pancreatic cancer (NCI-8601), where an intent-to-treat analysis of overall survival on patients with confirmed treatment regimes, as assessed by the percentage of patients surviving for two years, showed a statistically significantly higher percentage of patients surviving two years in the test arm versus the control arm ($p = 0.001$), the crossover arm versus the control arm ($p = 0.03$) and the test plus crossover arms versus the control arm ($p = 0.0004$);

Basic Research

- Two poster presentations covering preclinical work in multiple myeloma and colorectal cancer being made by the Company's research collaborators at the 2016 American Association of Cancer Research annual meeting;

Financial

- Entry into an "at-the-market" equity distribution agreement with Canaccord Genuity Corp. permitting Oncolytics at its sole discretion, from time to time and until March 16, 2018, to sell common shares having an aggregate offering value of up to \$4.6 million; and
- At March 31, 2016 the Company reported \$22.3 million in cash, cash equivalents and short-term investments. At May 5, 2016, the Company had approximately \$21.4 million in cash, cash equivalents and short-term investments, which is expected to provide sufficient funds to support several small early-stage immunotherapy combination studies as well as both a run-in and a registration study in muscle-invasive bladder cancer.

About Oncolytics Biotech Inc.

Oncolytics is a Calgary-based biotechnology company focused on the development of oncolytic viruses as potential cancer therapeutics. Oncolytics' clinical program includes a variety of later-stage, randomized human trials in various indications using REOLYSIN[®], its proprietary formulation of the human reovirus. For further information about Oncolytics, please visit: www.oncolyticsbiotech.com.

This press release contains forward-looking statements, within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements, including the Company's belief as to the potential of REOLYSIN[®] as a cancer therapeutic; the Company's expectations as to the success of its research and development programs in 2016 and beyond, the Company's planned operations, the value of the additional patents and intellectual property; the Company's expectations related to the applications of the patented technology; the Company's expectations as to adequacy of its existing capital resources; the design, timing, success of planned clinical trial programs; and other statements related to anticipated developments in the Company's business and technologies involve known and unknown risks and uncertainties, which could cause the Company's actual results to differ materially from those in the forward-looking statements. Such risks and uncertainties include, among others, the availability of funds and resources to pursue research and development projects, the efficacy of REOLYSIN[®] as a cancer treatment, the success and timely completion of clinical studies and trials, the Company's ability to successfully commercialize REOLYSIN[®], uncertainties related to the research and development of pharmaceuticals, uncertainties related to the regulatory process and general changes to the economic environment. Investors should consult the Company's quarterly and annual filings with the Canadian and U.S. securities commissions for additional information on risks and uncertainties relating to the forward-looking statements. Investors are cautioned against placing undue reliance on forward-looking statements. The Company does not undertake to update these forward-looking statements, except as required by applicable laws.
