OncoSec Medical to Ring The Nasdaq Stock Market Opening Bell

SAN DIEGO, July 1, 2015 /PRNewswire/ -- OncoSec Medical Inc. ("OncoSec") (Nasdaq: ONCS), a company developing DNA-based intratumoral cancer immunotherapies, today announced that CEO and President Punit Dhillon will ring The Nasdaq Opening Bell in celebration of the Company's listing to The Nasdaq Stock Market at 9:30 am ET on July 7, 2015 at The Nasdaq MarketSite in New York City.

"On behalf of all of our dedicated employees, investors, and stakeholders, we are honored to open the Nasdaq to celebrate OncoSec's listing on this leading stock exchange," said Punit Dhillon, CEO and President of OncoSec. "As a leader in intratumoral immunotherapy, our listing on Nasdaq marks another important milestone for OncoSec over the past year. We will continue to advance our intratumoral immunotherapies in the clinic with the goal of one day benefiting cancer patients everywhere."

OncoSec invites investors and the general public to view to the live webcast. At the time of the event, the webcast will be available via the following link: <https://new.livestream.com/nasdaq/live>. An archived version of the webcast will be available for 90 days on OncoSec's website: <http://www.oncosec.com>.

About OncoSec Medical Inc.

OncoSec Medical Inc. is a biopharmaceutical company developing its investigational ImmunoPulse™ intratumoral cancer immunotherapy. OncoSec's core technology is designed to enhance the local delivery and uptake of DNA IL-12 and other DNA-based immune-targeting agents. Clinical studies of ImmunoPulse™ have demonstrated an acceptable safety profile and preliminary evidence of anti-tumor activity in the treatment of various skin cancers, as well as the potential to initiate a systemic immune response limiting the systemic toxicities associated with other treatments. OncoSec's lead program evaluating ImmunoPulse™ for the treatment of metastatic melanoma is currently in Phase II development, and is being conducted in collaboration with several prominent academic medical centers. As the company continues to evaluate ImmunoPulse™ in its current indications, it is also focused on identifying and developing new immune-targeting agents, investigating additional tumor indications, and evaluating combination-based immunotherapy approaches.
