OncoSec to Present at Biomarkers & Immuno-Oncology World Congress 2017

SAN DIEGO, May 2, 2017 /PRNewswire/ -- OncoSec Medical Incorporated ("OncoSec") (NASDAQ: ONCS), a company developing DNA-based intratumoral cancer immunotherapies, announced today that Robert H. Pierce, MD, OncoSec Chief Scientific Strategist, will speak at the Biomarkers & Immuno-Oncology World Congress, taking place May 2-4, 2017, in Philadelphia, PA.

Details of the presentation are as follows:

Title: *In situ* Vaccination: Potential Mechanism(s) of Action and Biomarker Development

Session title: Personalized Cancer Vaccines

Date and Time: Tuesday, May 2, 2017 at 1:35 PM EST

Location: Philadelphia Marriott Downtown

Topics to be addressed are as follows:

- Intratumoral therapies that aim to enhance tumor immunogenicity, offer the potential to generate tumor antigen-specific TIL and augment anti-PD1 blockade;
- Clinical development of multiple *in situ* vaccinations: including TLR agonists, STING agonists, oncolytic viruses and proinflammatory cytokines;
- Potential safety advantages of *in situ* vaccinations; and
- Mechanism of action-based biomarker development.

About OncoSec Medical Incorporated

OncoSec is a biotechnology company developing DNA-based intratumoral immunotherapies with an investigational technology, ImmunoPulse[®], for the treatment of cancer.

ImmunoPulse[®] is designed to enhance the local delivery and uptake of DNA-based immune-targeting agents, such as IL-12. In Phase I and II clinical trials, ImmunoPulse[®] IL-12 has demonstrated a favorable safety profile and evidence of anti-tumor activity in the treatment of various solid tumors as well as a systemic clinical and immune response.

OncoSec's lead program, ImmunoPulse[®] IL-12, is currently in clinical development for metastatic melanoma and triple-negative breast cancer. The program's current focus is on the significant unmet medical need in patients with melanoma who are refractory or non-responsive to anti-PD-1/PD-L1 therapies. In addition to ImmunoPulse[®] IL-12, the Company is also identifying and developing new immune-targeting agents for use with the

ImmunoPulse® platform. For more information, please visit www.oncosec.com.

Cautionary Note Regarding Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as "can," "may," "will," "suggest," "look forward to," "potential," "understand," and similar references to future periods.

Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based on management's current preliminary expectations and are subject to risks and uncertainties, which may cause our results to differ materially and adversely from the statements contained herein. Potential risks and uncertainties that could cause actual results to differ from those predicted include, among others, the following: uncertainties inherent in pre-clinical studies and clinical trials, such as the ability to enroll patients in clinical trials and the risk of adverse events; unexpected new data, safety and technical issues; our ability to raise additional funding necessary to fund continued operations; and the other factors discussed in OncoSec's filings with the Securities and Exchange Commission.

Undue reliance should not be placed on forward-looking statements, which speak only as of the date they are made. OncoSec disclaims any obligation to update any forward-looking statements to reflect new information, events or circumstances after the date they are made, or to reflect the occurrence of unanticipated events.
