One Stop Systems to Demonstrate Flash Storage Solutions at Flash Memory Summit on August 7-9, 2018

ESCONDIDO, Calif. and SANTA CLARA, Calif., July 23, 2018 (GLOBE NEWSWIRE) -- One Stop Systems, Inc. (Nasdaq:OSS), the leading provider of high performance computing (HPC) GPU accelerators and NVMe flash arrays, will exhibit its flash storage appliances at Flash Memory Summit being held at the Santa Clara Convention Center on August 7-9, 2018.

OSS invites attendees to stop by booth #119 to view its complete line up of flash storage appliances and see live demonstrations of OSS composable storage solution running Liqid's PCIe flash storage and software. Visitors may also demo the Ion Accelerator™ 5.0 all-flash storage solution combined with Mellanox EDR Infiniband cards and ATTO Fibre Channel Cards.

OSS offers a variety of flash storage arrays and expansion systems for HPC applications at varying levels of density and features. It can provide up to 200 TB high-density PCIe NVMe flash and support up to 8 million IOPS with 40 GB/second throughput. Several OSS storage arrays are based on the Ion Accelerator software.

"Our line of flash storage appliances represent some of the fastest, most flexible and powerful turnkey storage solutions available today for high-performance computing," said OSS CEO Steve Cooper. "Our Ion Accelerator solution provides one of the most advanced enterprise-class, all-flash storage solutions that delivers cost-effective, near-native NVMe performance for data-intensive workloads."

OSS was recently awarded a $3.2 million purchase order from a leader in defense, civil government and cybersecurity solutions for rugged Ion Accelerator all-flash array data storage units.

Customers can order the Ion Accelerator and flash storage appliances from highly-trained OSS sales engineers at sales@onestopsystems.com.

OSS is a proud platinum sponsor of the Flash Memory Summit.

About the Flash Memory Summit
Flash Memory Summit, produced by Conference ConCepts, showcases the mainstream applications, key technologies, and leading vendors that are driving the multi-billion dollar non-volatile memory and SSD markets. FMS is now the world's largest event featuring the trends, innovations, and influencers driving the adoption of flash memory in demanding enterprise storage applications, as well as in smartphones, tablets, and mobile and embedded systems. For more information, go to https://flashmemorysummit.com/index.html.

About One Stop Systems
One Stop Systems, Inc. (OSS) designs and manufactures high performance compute accelerators, flash storage arrays and customized servers for deep learning, AI, defense, finance and entertainment applications. OSS utilizes the power of PCI Express, the latest GPU accelerators and NVMe flash cards to build award-winning systems, including many industry firsts, for OEMs and government customers. The company's innovative hardware and Ion Accelerator Software offers exceptional performance and unparalleled scalability. OSS products are available directly, through global distributors, or via its SkyScale cloud services. For more information, go to www.onestopsystems.com.

Forward-Looking Statements
One Stop Systems cautions you that statements in this press release that are not a description of historical facts are forward-looking statements. These statements are based on the company's current beliefs and expectations. These forward-looking statements include statements regarding the features and performance of our Ion Accelerator solutions and the $3.2M purchase order and its impact on future sales outcomes. The inclusion of forward-looking statements should not be regarded as a representation by One Stop Systems that any of our plans will be achieved. Actual results may differ from those set forth in this press release due to the risk and uncertainties inherent in our business, including, without limitation: risks associated with the performance of One Stop Systems' technology and

the Ion Accelerator solution; the market for the Ion Accelerator solution is developing and may not develop as we expect; and other risks described in our prior press releases and in our filings with the Securities and Exchange Commission (SEC), including under the heading "Risk Factors" in our Annual Report on Form 10-K and any subsequent filings with the SEC. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof, and we undertake no obligation to revise or update this press release to reflect events or circumstances after the date hereof. All forward-looking statements are qualified in their entirety by this cautionary statement, which is made under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995.
