One Stop Systems' Concept Development Invited to Exhibit at APEX EXPO

IRVINE, Calif., and BOSTON, Sept. 11, 2018 (GLOBE NEWSWIRE) -- Concept Development (CDI), a designer and manufacturer of in-flight entertainment systems and components and a wholly-owned subsidiary of One Stop Systems, Inc. (Nasdaq: OSS), will exhibit at the 2018 [APEX EXPO](#) in Boston MA.

The conference is the largest airline industry event exclusive to experts and decision-makers committed to elevating the level of the worldwide airline passenger experience.

The expo will be held at the Boston Convention and Exhibition Center on September 25-27, 2018, and is expected to attract more than 3,000 industry professionals, including representatives from nearly 100 airlines along with more than 300 content providers, OEMs, systems manufacturers and other industry suppliers from around the globe.

CDI invites attendees to visit its booth #322, where it will exhibit a variety of high-performance systems designed for the aerospace and in-flight entertainment markets. After more than 50 designs completed for the in-flight entertainment industry, CDI has become a valued partner for companies in a wide range of applications.

About APEX EXPO

The APEX EXPO is the industry's largest "PaxEx" event exclusive to experts and decision-makers committed to elevating the level of the worldwide airline passenger experience. The event features seminars led by industry experts, the latest and a comprehensive display of airline related technologies, products and services, and valuable networking opportunities. The EXPO will be co-located with International Flight Services Association Conference & Expo and the Aircraft Interiors Expo. For more information, visit <http://expo.apex.aero/>.

About Concept Development

Irvine, California-based Concept Development, Inc. specializes in the design and manufacturing of custom high-performance computing systems for airborne in-flight entertainment systems. CDI's capabilities include electrical, mechanical and software design as well as extensive experience in test and certifications required for airborne systems.
