One Stop Systems Wins 2018 TechConnect Defense Innovation Award; Company to Participate at Defense TechConnect Fall Summit & Expo October 23-25, 2018

ESCONDIDO, Calif. and TAMPA, Fla., Oct. 19, 2018 (GLOBE NEWSWIRE) -- One Stop Systems, Inc. (Nasdaq: OSS), the leader in specialized high-performance computers, has won the [2018 TechConnect Defense Innovation Award](#) for its MIL-STD Ion Accelerator™ all-flash Data Storage Unit, the [Flash Storage Network Array \(FSAn-4\)](#).

The FSAn-4 placed in the top 15% of technologies submitted to Defense TechConnect Selection Committee. Rankings are based on the potential positive impact the technology will have on the warfighter and national security.

The FSAn-4 is an all-flash array designed as a high-speed data storage unit for the warfighter and is used in military aircraft, ground stations and mobile data centers. The data storage unit allows unprecedented mission turn-around times and virtually unlimited storage capacity. It has hot-swappable magazines that can install up to 32 NVMe flash drives in seconds, as well as optional encryption, compression, provisioning and enterprise features. The FSAn-4's rugged, lightweight form factor allows it to move easily with the troops.

OSS has been invited to participate at the [2018 Defense TechConnect Fall Summit & Expo](#) being held at Tampa Convention Center on October 23-25, 2018. OSS invites attendees to stop by the company's booth #219 to see the award winning FSAn-4 on October 23-24.

Company representatives will also lead a session, "MIL-STD Ion Accelerator all-flash Data Storage Unit" on October 25 at 10:05 a.m.

Trained OSS sales engineers can be reached at sales@onestopsystems.com for all your MIL-SPEC and specialized high-performance computing needs.

About Defense TechConnect Summit

Defense TechConnect (DTC) Summit is a convention for the defense, private industry, federal agency, and academic leadership to accelerate state-of-the-art technology solutions for the warfighter and national security. The DTC supports innovation imperatives in the new National Defense Strategy (NDS) and is a unique platform to reach thousands of public and private leaders focused on innovation and technology to support the warfighter. The conference offers over 200 booths and tabletop displays representing private sector companies and non-traditional innovators. At last year's convention, over 1,000 meetings took place between small businesses and SBIR Federal Program Managers. This conference offers more than 30 breakout sessions focused on defense innovation areas of interest including but not limited to energy, cyber, biomedical, and command, control, communications, computers/intelligence, surveillance, and reconnaissance (C4ISR). For more information, go to <https://events.techconnect.org/DTCFall/about/>.

About One Stop Systems

One Stop Systems, Inc. (OSS) designs and manufactures high performance compute accelerators, flash storage arrays and customized servers for deep learning, AI, defense, finance and entertainment applications. OSS utilizes the power of PCI Express, the latest GPU accelerators and NVMe flash cards to build award-winning systems, including many industry firsts, for OEMs and government customers. The company's innovative hardware and Ion Accelerator Software offers exceptional performance and unparalleled scalability. OSS products are available directly, through global distributors, or via its SkyScale cloud services. For more information, go to www.onestopsystems.com

Forward-Looking Statements

One Stop Systems (OSS) cautions you that statements in this press release that are not a description of historical facts are forward-looking statements. These statements are based on the company's current beliefs and expectations. These forward-looking statements include statements regarding the ability of OSS to continue to deliver superior solutions for high-performance computing and about the anticipated features and performance of its flash array products. The inclusion of forward-looking statements should not be regarded as a representation by One Stop Systems that any of our plans will be achieved. Actual results may differ from those set forth in this press

release due to the risk and uncertainties inherent in our business, including, without limitation, risks associated with meeting and maintaining ISO certification standards, maintaining performance standards, impacts, costs and other features in our product lines and other risks described in our prior press releases and in our filings with the Securities and Exchange Commission (SEC), including under the heading "Risk Factors" in our Annual Report on Form 10-K and any subsequent filings with the SEC. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof, and we undertake no obligation to revise or update this press release to reflect events or circumstances after the date hereof. All forward-looking statements are qualified in their entirety by this cautionary statement, which is made under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995.
