OSS to Demonstrate World's First PCIe Gen 4 Cable Adapter at SC18 on November 12-15

ESCONDIDO, Calif., Nov. 12, 2018 (GLOBE NEWSWIRE) -- One Stop Systems, Inc. (Nasdaq: OSS), a leader in specialized high-performance computing, has been invited to exhibit at [SC18](#) at Kay Bailey Hutchison Convention Center in Dallas, Texas on November 12-15.

SC18 is an international conference for high-performance computing, networking, storage, and analysis. OSS will showcase its latest products and solutions alongside more than 375 exhibitors from around the world, comprised of manufacturers, research organizations, and universities.

Attendees can stop by its booth #527 for a demonstration of the company's recently introduced HIB616-x16, the world's first [PCIe Gen 4 cable adapter](#).

The OSS booth will also feature a partner pavilion where several OSS partners will be represented, including NVIDIA, SkyScale, Western Digital, Liquid, One Convergence, Intel and Lenovo. OSS and its partners will showcase new products, services and solutions for high-performance computing, including GPU and flash storage expansion, composable infrastructure solutions, the latest EOS server, cloud computing, and the company's recently introduced Thunderbolt eGPU product.

Customers can order this next-generation PCIe Gen 4 cable adapter along with other products and solutions from One Stop Systems' highly-trained sales engineers at sales@onestopsystems.com.

PCI Express and PCIe are trademarks of PCI-SIG.

About SC18

SC18 is the premier international conference showcasing the many ways high performance computing, networking, storage and analysis leads to advances in scientific discovery, research, education, and commerce. The annual event, created and sponsored by the ACM (Association for Computing Machinery) and the IEEE Computer Society, attracts HPC professionals and educators from around the globe to participate in its complete technical education program, workshops, tutorials, a world class exhibit area, demonstrations and opportunities for hands-on learning. For more information, go to sc18.supercomputing.org.

About One Stop Systems

One Stop Systems, Inc. (OSS) designs and manufactures specialized high-performance computers including customized servers, compute accelerators, flash storage arrays, expansion systems and other specialized system elements. These products are used for deep learning, AI, defense, medical, finance and entertainment applications. OSS utilizes the power of PCI Express, latest GPU accelerators and NVMe flash cards to build award-winning systems, including many industry firsts, for OEMs and government customers. The company's innovative hardware and Ion Accelerator software offers exceptional performance and unparalleled scalability. OSS products are available directly, through global distributors, or via its SkyScale cloud services. For more information, go to www.onestopsystems.com.

Forward-Looking Statements

One Stop Systems (OSS) cautions you that statements in this press release that are not a description of historical facts are forward-looking statements. These statements are based on the company's current beliefs and expectations. These forward-looking statements include statements regarding the ability of OSS to continue to deliver superior solutions for high-performance computing and about the anticipated features and performance of its flash array products and PCIe Gen 4 product line. The inclusion of forward-looking statements should not be regarded as a representation by One Stop Systems that any of our plans will be achieved. Actual results may differ from those set forth in this press release due to the risk and uncertainties inherent in our business, including, without limitation, risks associated with meeting and maintaining ISO certification standards, maintaining performance standards, impacts, costs and other features in our product lines, including our PCIe Gen 4 adapters, and other risks described in our prior press releases and in our filings with the Securities and Exchange Commission (SEC), including under the heading "Risk Factors" in our Annual Report on Form 10-K and any subsequent filings with the SEC. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of

the date hereof, and we undertake no obligation to revise or update this press release to reflect events or circumstances after the date hereof. All forward-looking statements are qualified in their entirety by this cautionary statement, which is made under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995.
