Outlook

Dale Redman, Chief Executive Officer, commented, “We are very proud of the way our team finished what was the most successful and transformational year in our company’s history. We are fortunate to serve a best in class customer base that continues to innovate and lead in the Permian Basin. Our long-term business model of close collaboration with our customers to help drive their success has served us well through industry cycles and times of transitory market volatility and we will continue with our proven approach. During the fourth quarter of 2018 we experienced higher than expected activity levels as well as improved efficiencies leading to strong financial performance. Continued high levels of utilization for our legacy fleet complemented by the recent closing of our transaction with Pioneer Natural Resources and initiation of the service agreement to meet their long-term needs has resulted in a good start to 2019. We look forward to further serving the needs of our customers as we improve and build upon our differentiated business model.”
