PositiveID to Exhibit its Caregiver Non-Contact Thermometer at EMS Today, a Journal of Emergency Medical Services Conference and Exposition, February 21-23

DELRAY BEACH, Fla., Feb. 20, 2018 (GLOBE NEWSWIRE) -- [PositiveID Corporation](#) (OTC:PSID), a life sciences company focused on detection and diagnostics, announced today that its Thermomedics subsidiary will exhibit the Caregiver® non-contact thermometer at EMS Today, the Journal of Emergency Medical Services (JEMS) Conference and Exposition, from February 21-23, at the Charlotte Convention Center in Charlotte, NC.

[Caregiver](#), which is FDA cleared for clinical use, is a professional grade, infrared thermometer for measurement of forehead temperature in adults, children, and infants, without contact. It delivers an oral-equivalent temperature directly from the forehead in one to two seconds. Since there is no skin contact and Caregiver does not require probe cover supplies, it reduces the risk of cross-contamination, which is an increasing concern, and saves healthcare facilities the cost of covers (as much as \$0.10 per temperature), storage space, and waste disposal costs. It is estimated that Caregiver can offer savings of \$250 or more per year per device in probe cover supplies alone.

The Company recently announced the launch of a Bluetooth®-enabled Caregiver thermometer. The new, advanced version of Caregiver is the first FDA cleared non-contact, infrared thermometer intended for professional use that utilizes Bluetooth technology to connect wirelessly to patient monitoring stations and electronic health records systems to transmit temperature readings automatically into a patient's record to increase efficiency and accuracy.

EMS Today offers networking with 4,500+ EMS professionals from around the world; countless hands-on experiences (both on-site and off-site); 240+ CEH opportunities and the most innovative products and services available to the industry displayed by over 250 exhibiting companies. EMS Today is produced by JEMS, the leader in EMS education for over 35 years.

The Thermomedics team, which markets the Caregiver thermometer, exhibits at several industry conferences each year to increase exposure and awareness for Caregiver and generate qualified leads for its national network of distributors.

About PositiveID Corporation

PositiveID Corporation is a holding company focused on life sciences, diagnostics, mobile

laboratories, and medical devices. PositiveID's [ExcitePCR](#) subsidiary is developing the FireflyDX family of pathogen detection systems, portable devices offering rapid sample-to-result detection in less than 30 minutes using real-time polymerase chain reaction chemistry. PositiveID's [E-N-G Mobile Systems](#)[™] subsidiary is a leader in the mobile technology vehicle market, with a focus on the laboratory market and homeland security. PositiveID's Thermomedics subsidiary markets the FDA-cleared Caregiver® non-contact thermometer for clinical use. SAFE HARBOR

Statements about PositiveID's future expectations, including the likelihood that Caregiver can offer savings of \$250 or more per year per device in probe cover supplies alone, constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Litigation Reform Act of 1995. Such forward-looking statements involve risks and uncertainties and are subject to change at any time, and PositiveID's actual results could differ materially from expected results. These risks and uncertainties include, without limitation, the Company's ability to target the professional healthcare market; the Company's ability to attract and retain new customers; the Company's ability to raise capital; as well as other risks. Additional information about these and other factors that could affect the Company's business is set forth in the Company's various filings with the Securities and Exchange Commission, including those set forth in the Company's 10-K filed on March 31, 2017, and 10-Qs filed on August 14, 2017, May 15, 2017, and November 18, 2016, under the caption "Risk Factors." The Company undertakes no obligation to update or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this statement or to reflect the occurrence of unanticipated events, except as required by law.
