# SKECHERS Achieves New Second Quarter 2018 Sales Record

MANHATTAN BEACH, Calif.--(BUSINESS WIRE)-- SKECHERS USA, Inc. (NYSE:SKX), a global footwear leader, today announced financial results for the second quarter ended June 30, 2018.

## Second Quarter Highlights

- **Record sales of \$1.134 billion, an increase of 10.6 percent**
- **Record quarter gross margins of 49.4 percent**
- **International wholesale sales increased 24.9 percent; total international wholesale and retail sales combined represented 51.6 percent of total sales**
- **Company-owned global retail sales increased 12.8 percent, with a comparable same store sales increase of 4.5 percent worldwide**

“The financial accomplishments in the second quarter are the result of our product and marketing, as well as our on-going efforts to seek out global opportunities,” began Robert Greenberg, Skechers chief executive officer. “With the resurgence of retro looks and Skechers D’Lites, we are the originator of one of the hottest trends in footwear. At the core of this chunky look is comfort, which runs through every one of our divisions—from Relaxed Fit to Skechers Sport to our sandal collections. The excitement over Skechers D’Lites has allowed us to broaden our distribution and marketing to reach savvy millennial consumers. With chart-topping Camila Cabello in Skechers D’lites, we have a global ambassador who resonates with this audience. Add to that, the campaigns for our wide demographic appeal and vast footwear offering—including those with ambassadors, Tony Romo, Howie Long and David Ortiz—enable us to meet the footwear needs of men, women and children in the United States and around the world. With the right product and marketing, we believe there is significant opportunity to further grow our brand and continue to take market share. We are investing in our international business—both in newer and established markets as we continue to experience strong growth overseas. We’re looking forward to the back-to-school season, and the remainder of the year as we deliver more new styles backed by impactful marketing.”

“We achieved another record sales quarter and continued to see significant growth in our subsidiary and joint venture businesses, which resulted in record sales of \$2.38 billion over the first six months of the year,” stated David Weinberg, chief operating officer of Skechers. “Our largest international markets—Canada, China, South Korea, Germany, India, and the United Kingdom, achieved double-digit sales growth in the second quarter, a testament to our global strategy. Additionally, China shipped approximately 5.6 million pairs in the period, a new quarterly record. As expected, our domestic wholesale had single-digit decreases in the quarter though much of our business within our core accounts remained solid. Our international distributor business also had single-digit decreases, but

performed better than originally anticipated. Looking forward, we believe both of our domestic wholesale and international distributor businesses will be positive in the second half of the year. Our focus for the balance of 2018 is to continue to grow our international business while maintaining our strength in the United States.”
