# Oculus Innovative Sciences Reports Financial Results for the Fourth Quarter of Fiscal Year 2015

- Total revenue increased 37% to \$4 million from \$2.9 million in the same period last year; up 25% from the quarter ending December 31, 2014
- Cash as of March 31, 2015 of \$6.1 million and debt free
- Upon completion of Ruthigen merger, Oculus will receive an additional \$4.5 million from the sale of Ruthigen shares
- Company strategy to expand footprint in U.S. dermatology is on track: sales in the fourth quarter grew to \$412,000, up \$302,000 from the same period last year
- Conference call begins at 4:30 p.m. EDT today

PETALUMA, Calif., June 11, 2015 (GLOBE NEWSWIRE) -- Oculus Innovative Sciences, Inc. (Nasdaq:OCLS) (tradable warrants OCLSW) today announced financial results for the fourth quarter of fiscal year 2015, which ended on March 31, 2015. Total revenue was \$4.0 million for the fourth quarter as compared to \$2.9 million for the same period in 2014. Product revenues were up 41% from the same period last year, driven by increases in Mexico, Europe, the United States, the Middle East and Singapore, partially offset by decreases in product royalty revenue in the United States for animal healthcare products.

"We are pleased with the progress we are making as a company, which is evidenced with our solid fourth quarter results. Going forward, we will continue to implement three key initiatives that we believe will return us to strong overall revenue growth in conjunction with the continued high growth of our international business," said Jim Schutz, Oculus CEO. "First, using our direct sales force, we have launched three human healthcare products in the United States in the last six months, and have additional new product launches planned for the next six months. Second, building on our solid sales performance in Europe, along with the recent CE Mark approvals for the treatment of acne, scars, atopic dermatitis and certain skin procedures, we intend to create a country-specific European dermatology distribution network. Third, we have selected a highly experienced new partner in the animal healthcare space, and launched the MicrocynAH animal healthcare family of products in the United States in March 2015."

## Results for the Three Months Ended March 31, 2015

Product revenue in Mexico for the three months ended March 31, 2015, of \$1.7 million, increased \$837,000, or 96%, when compared to the same period in the prior year. During the current quarter Oculus' partner, More Pharma, was purchased by a significantly larger company, Laboratorios Sanfer ("Sanfer"), and Sanfer has stocked the products in a

number of additional pharmacies, causing a strong growth in the number of units sold. Separately, for the three months ended March 31, 2015 and 2014, the product licensing revenue was \$369,000 and \$372,000, respectively, related to the amortization of upfront license fees paid by More Pharma.

Revenue in Europe and the Rest of the World for the three months ended March 31, 2015, was \$932,000, with an increase of \$329,000, or 55%, as compared to the same period in the prior year, with increases in Europe, Middle East and Singapore, partly offset by a decrease in India. The increase in Europe is largely the result of multiple new advanced tissue care product line extensions as well as the addition of new European distributors. Sales increased in the Middle East by \$337,000 as a result of winning government bids and the timing of periodic orders.

Total product revenues in the United States were \$623,000 for the three months ended March 31, 2015, as compared to \$287,000 in the quarter ended March 31, 2014. Product revenues were up \$336,000 from the same period last year due to higher sales in dermatology and acute care products. Separately, the product licensing revenue was down \$416,000 or 48%, primarily related to lower sales in animal healthcare.

In the third quarter of this year, Oculus deployed a direct sales force focused on dermatology, which has launched three new dermatology products. U.S. dermatology sales for the fourth quarter were \$412,000, up \$302,000 from the same period last year as Oculus was launching its Alevicyn and Celacyn products with its direct sales force along with growth in revenue from Oculus' dermatology partner. Oculus recorded revenue in the amounts of \$10,000 and \$416,000, for the three months ended March 31, 2015 and 2014, respectively, from Oculus' former animal healthcare partner. The decrease in revenue was caused by a reduction in the unit volume related to Oculus' transition to a new animal health care partner. At the end of the quarter ended March 31, 2015, Oculus launched the MicrocynAH® animal health care products with SLA Brands, the company's new animal healthcare partner.

Oculus reported gross profit related to the company's products of \$1.9 million, or 52% of product revenues, during the three months ended March 31, 2015, compared to a gross profit of \$1.4 million, or 52% of product revenues, for the same period in the prior year. Licensing revenues are included in the calculation of product revenues and gross profit for the quarters ended March 31, 2015 and 2014, which amounted to \$369,000 and \$372,000, respectively.

Total operating expenses of \$3.6 million for the three months ended March 31, 2015, increased by \$155,000, or 4%, as compared to the same period in the prior year. Operating expenses minus non-cash expenses during the fourth quarter of fiscal year 2015 were \$3.3 million, up \$101,000, or 3%, as compared to the same period in the prior year. The increase in operating expenses, minus non-cash expenses, was due to higher sales and marketing expenses in the United States, partially offset by lower expenses for the company's previously consolidated, wholly owned subsidiary, Ruthigen.

Research and development expenses of \$374,000 for the three months ended March 31, 2015, decreased \$348,000, or 48%, when compared to the same period in the prior year. The decrease is largely due to \$314,000 incurred during the same period in the prior year

by the company's formerly wholly owned subsidiary Ruthigen.

Selling, general and administrative expense for the three months ended March 31, 2015, increased \$503,000, or 18%, when compared for the same period in the prior year. The increase for the three months ended March 31, 2015, was primarily due to higher sales and marketing expenses in the United States as Oculus added to its direct sales force in dermatology and acute care, partially offset by a decrease of \$266,000 related to expenses incurred by the company's formerly wholly owned subsidiary, Ruthigen, in the prior period.

Net loss for the three months ended March 31, 2015, was \$1.5 million, an increase of \$9.0 million, as compared to net income of \$7.5 million for the same period in the prior year. The increase is primarily due to the one-time gain of \$11.1 million recorded in the three months ended March 31, 2014, related to Oculus' investment in Ruthigen.

As of March 31, 2015, Oculus had unrestricted cash and cash equivalents of \$6.1 million, as compared with \$5.5 million at March 31, 2014, and the company has no debt outstanding. On January 26, 2015, Oculus closed an underwritten public offering with net proceeds of \$5.3 million. On March 16, 2015, Oculus announced that it sold 350,000 shares of Ruthigen for \$962,000 and agreed to sell its remaining 1.65 million Ruthigen shares for \$4.5 million to investors if the merger of Ruthigen is completed.

### **Results for Twelve Months Ending March 31, 2015**

Total revenues were \$13.9 million for the twelve months ended March 31, 2015, as compared to \$13.7 million for the same period in the prior year. Product revenues, including product licensing fees, for the twelve months ended March 31, 2015, were \$13.0 million, an increase of \$272,000, or 2%, for the same period in the prior year. The increase in sales is a result of sales growth in Europe, Mexico, the Middle East and Singapore, partially offset by decreases in the product royalty revenue in the United States related to animal and dermatology products, as well as a decrease in India.

Oculus reported gross profit related to sales of its products of \$7.1 million, or 55% of product revenues, for the twelve months ended March 31, 2015, compared to a gross profit of \$8.2 million, or 65% of product revenues, for the same period in the prior year.

Total operating expenses minus non-cash expenses decreased \$649,000 for the twelve months compared to the same period in the prior year. Operating loss minus non-cash expenses (EBITDAS) for the twelve months ended March 31, 2015, was \$4.7 million, compared to \$4.6 million for the same period last year.

### **Conference Call**

Oculus' management will hold a conference call today to discuss fourth quarter fiscal year 2015 results and answer questions, beginning at 4:30 p.m. ET. Individuals interested in participating in the conference call may do so by dialing 877-303-7607 for domestic callers or 973-638-3203 for international callers.

Those interested in listening to the conference call live via the Internet may do so at

<http://ir.oculusis.com/events.cfm>. Please log on approximately 30 minutes prior to the presentation in order to register and download the appropriate software.

A telephone replay will be available for seven days following the conclusion of the call by dialing 855-859-2056 for domestic callers, or 404-537-3406 for international callers, and entering conference code 18697280. A webcast replay will be available on the site at <http://ir.oculusis.com/events.cfm> for one year following the call.

### **About Oculus Innovative Sciences, Inc.**

Oculus Innovative Sciences is a specialty pharmaceutical company that develops and markets solutions for the treatment of dermatological conditions and advanced tissue care. The company's products, which are sold throughout the United States and internationally, have improved outcomes for more than five million patients globally by reducing infections, itch, pain, scarring and harmful inflammatory responses. The company's headquarters are in Petaluma, California, with manufacturing operations in the United States and Latin America. European marketing and sales are headquartered in Roermond, Netherlands. More information can be found at [www.oculusis.com](http://www.oculusis.com).

### **Forward-Looking Statements**

Except for historical information herein, matters set forth in this press release are forward-looking within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, including statements about the commercial and technology progress and future financial performance of Oculus Innovative Sciences, Inc. and its subsidiaries (the "Company"). These forward-looking statements are identified by the use of words such as "believe," "preparing," "anticipates," and "launch," "create," among others. Forward-looking statements in this press release are subject to certain risks and uncertainties inherent in the Company's business that could cause actual results to vary, including such risks that regulatory clinical and guideline developments may change, scientific data may not be sufficient to meet regulatory standards or receipt of required regulatory clearances or approvals, clinical results may not be replicated in actual patient settings, protection offered by the Company's patents and patent applications may be challenged, invalidated or circumvented by its competitors, the available market for the Company's products will not be as large as expected, the Company's common stock and warrants may be delisted from NASDAQ, the Company's products will not be able to penetrate one or more targeted markets, revenues will not be sufficient to fund further development and clinical studies, the Company may not meet its future capital needs, the Company may not be able to obtain additional funding, as well as uncertainties relative to varying product formulations and a multitude of diverse regulatory and marketing requirements in different countries and municipalities, and other risks detailed from time to time in the Company's filings with the Securities and Exchange Commission including its annual report on Form 10-K for the year ended March 31, 2014. The Company disclaims any obligation to update these forward-looking statements, except as required by law.

(1) Loss from operations minus non-cash expenses (EBITDAS) is a non-GAAP financial measure. The Company defines operating loss minus non-cash expenses as GAAP reported operating loss minus operating depreciation and amortization, and operating stock-based compensation. The Company uses this measure for the purpose of modifying the operating loss to reflect direct cash related transactions during the measurement period.

(2) Net loss minus non-cash expenses is a non-GAAP financial measure. The Company defines net loss minus non-cash expenses as GAAP reported net loss minus depreciation and amortization, stock-based compensation, a change in fair value of common stock, a change in the fair value of derivative instruments, loss on impairment of investment,

and non-cash interest expense. The Company uses this measure for the purpose of modifying the net loss to reflect only those expenses to reflect direct cash transactions during the measurement period.

(3) Operating expenses minus non-cash expenses is a non-GAAP financial measure. The Company defines operating expenses minus non-cash expenses as GAAP reported operating expenses minus operating depreciation and amortization, and operating stock-based compensation. The Company uses this measure for the purpose of identifying total operating expenses involving cash transactions during the measurement period.
