Tecogen to Exhibit at GLOBALCON Expo

WALTHAM, Mass., Feb. 25, 2016 /PRNewswire/ -- [Tecogen® Inc.](#) (NASDAQ: TGEN) is pleased to announce the Company will be exhibiting its premier line of efficient clean energy solutions at the 46th annual GLOBALCON Expo to be held March 9th-10th at the Hynes Convention Center in Boston, MA. A full scale model of Tecogen's InVerde combined heat and power (CHP) technology will be prominently displayed in Booth #504. Showcased alongside the Company's full portfolio of best-in-class natural gas powered on-site energy solutions, the latest InVerde model offers superior electrical efficiency, emergency blackstart backup power, seamless grid interconnection, and near-zero emissions of harmful criteria pollutants (NOx and CO).

While company representatives will be available at the booth to answer questions and meet with attendees throughout the event, two formal presentations will also be made by members of the Tecogen team during GLOBALCON. On Wednesday March 9th 11:00 AM EST in Presentation Area One, Tecogen Vice President of Sales, Jeffrey Glick, will host a workshop discussion titled "Inverter Based CHP Systems – Advantages and Applications." The presentation will highlight key differentiating features offered by inverter-based combined heat and power systems as well as best uses of the cutting-edge power technology.

In addition, Stephen LaFaille, Product Manager for the Company's ultra-efficient Ilios® line of gas heat pumps, will be speaking on Day 2 of the Expo. At 2:00 PM EST on March 10th Mr. LaFaille will discuss Gas Heat Pump Technology for Commercial Applications during a Buildings session chaired by David A. Gaudet, Mechanical/Industrial Engineering manager for National Grid. The Ilios natural gas or propane fueled water heater combines traditional boiler technology with the power of an engine driven heat pump to cut fuel consumption and carbon emissions in half while free waste heat from the engine is captured and repurposed, adding to the unit's capacity and efficiency. Come hear more about gas heat pump technology and its wide range of commercial applications during Mr. LaFaille's discussion.

Visit the Products section of our website (<http://www.tecogen.com/products-overview.htm>) to brush up on the capabilities offered by our ultra-efficient suite of equipment for power generation, heating and cooling and then stop by Booth #504 to learn more!

GLOBALCON 2016, presented by the Association of Energy Engineers, is designed specifically to facilitate those seeking to expand their knowledge of fast-moving developments in the energy field, explore promising new technologies, compare energy supply options, and learn about innovative and cost-conscious project implementation strategies.

About Ilios

Ilios Inc., a subsidiary of Tecogen Inc., was formed in April 2009 to develop and distribute a line of ultra high-efficiency heating products for commercial and industrial applications utilizing advanced thermodynamic principles. Products incorporate mechanical work to extract heat from the environment to supplement chemical energy available from natural gas or propane. The result is a significant boost in efficiency and reduced carbon emissions relative to conventional heating systems. For more information please visit www.iliosdynamics.com.

About Tecogen

Tecogen manufactures, installs, and maintains high efficiency, ultra-clean, combined heat and power products including natural gas engine-driven cogeneration, air conditioning systems, and high-efficiency water heaters for residential, commercial, recreational and industrial use. The company is known for cost efficient, environmentally friendly and reliable products for energy production that, through patented technology, nearly eliminate criteria pollutants and significantly reduce a customer's carbon footprint.

In business for over 20 years, Tecogen has shipped more than 2,300 units, supported by an established network of engineering, sales, and service personnel across the United States. For more information, please visit www.tecogen.com or follow us on [Twitter](#), [Facebook](#), and [LinkedIn](#).

Tecogen, InVerde, Ilios, Tecochill, Ultera, and e⁺, are registered trademarks of Tecogen Inc.

Forward Looking Statements

This press release contains forward-looking statements under the Private Securities Litigation Reform Act of 1995 that involve a number of risks and uncertainties. Important factors could cause actual results to differ materially from those indicated by such forward-looking statements, as disclosed on the Company's website and in Securities and Exchange Commission filings. The statements in this press release are made as of the date of this press release, even if subsequently made available by the Company on its website or otherwise. The Company does not assume any obligation to update the forward-looking statements provided to reflect events that occur or circumstances that exist after the date on which they were made.
