## VF Reports Third Quarter 2016 Results

- Total revenue from continuing operations down 1 percent to \$3.5 billion;
- Outdoor & Action Sports revenue up 2 percent to \$2.3 billion;
- Direct-to-consumer revenue up 6 percent to \$800 million;
- International revenue up 5 percent to \$1.4 billion (up 6 percent currency neutral);
- Gross margin up 70 basis points to 48.4 percent, including 60 basis points of negative impact from changes in foreign currency;
- Earnings per share up 13 percent to \$1.20 (up 16 percent currency neutral);
- Inventories up 1 percent compared with the same period of 2015; and,
- Quarterly dividend rate increased by 14 percent to \$0.42 per share.

GREENSBORO, N.C.--(BUSINESS WIRE)-- VF Corporation (NYSE: VFC) today reported financial results for its third quarter ended October 1, 2016. All per share amounts are presented on a diluted basis. This release refers to “reported” and “currency neutral” amounts, terms that are described under the “Currency Neutral – Excluding the Impact of Foreign Currency” paragraph. Reconciliations of GAAP measures to currency neutral amounts are presented in the supplemental financial information included with this release, which identify and quantify all excluded items. Unless otherwise noted, reported and currency neutral amounts are the same. This release also refers to both “continuing” and “discontinued” operations amounts, concepts that are described under the “Discontinued Operations – Contemporary Brands” paragraph. Unless otherwise noted, results presented are based on continuing operations.

“We continue to operate in an uneven, global economic environment including especially sluggish retail conditions in the Americas, our largest market,” said Eric Wiseman, VF Chairman and Chief Executive Officer. “With a strong balance sheet, powerful brands, and a growing global presence, we have great confidence in our ability to maintain near-term profitability, yet we’re not satisfied with our third quarter results. We remain sharply focused on operational improvements and taking advantage of this environment to accelerate strategies to create sustainable, long-term growth opportunities for our brands.”

### ***Discontinued Operations – Contemporary Brands***

On August 26, 2016, the company completed the sale of its Contemporary Brands businesses, which included the *7 For All Mankind*<sup>®</sup>, *Splendid*<sup>®</sup> and *Ella Moss*<sup>®</sup> brands, to Delta Galil Industries, Ltd. Accordingly, the company removed the assets and liabilities of the Contemporary Brands businesses as of that date and included the results of those businesses in discontinued operations for all periods presented.

The company’s net loss from discontinued operations was about \$5 million in the third quarter of 2016,

which includes both the final adjustment to the loss on the sale of the Contemporary Brands businesses and the operating results for the businesses during the quarter, net of tax.

### ***Income Statement Review***

- **Revenue** was down 1 percent to \$3.5 billion.
- **Gross margin** was up 70 basis points to 48.4 percent on a reported basis, as benefits from pricing, mix and lower product costs were partially offset by changes in foreign currency and inventory management efforts. Changes in foreign currency negatively impacted reported gross margin by 60 basis points in the quarter.
- **Operating income** on a reported basis was down 1 percent to \$635 million compared with the same period of 2015. Operating margin on a reported basis increased 10 basis points to 18.2 percent. Changes in foreign currency negatively impacted reported operating margin by 40 basis points in the quarter.
- **Earnings per share** was up 13 percent to \$1.20 compared with \$1.06 during the same period last year. Excluding the impact of foreign currency, third quarter earnings per share was up 16 percent. The quarter benefitted from a lower tax rate due to a higher mix of international sales and about \$0.06 per share due to net tax discrete items relative to 2015.

### ***Coalition Review***

Third quarter revenue for **Outdoor & Action Sports** was up 2 percent to \$2.3 billion.

- Revenue for *The North Face*<sup>®</sup> brand was down 1 percent (flat currency neutral) in the quarter including a mid-single-digit rate decline in the Americas; a more than 20 percent increase in Europe; and, a mid-single-digit percentage rate decline in Asia-Pacific (down low single-digit currency neutral).
- *Vans*<sup>®</sup> brand revenue was up 7 percent (up 8 percent currency neutral) driven by a high single-digit percentage rate increase in the Americas business (up 10 percent currency neutral); a low single-digit rate decline in Europe; and more than 20 percent growth in Asia-Pacific.
- *Timberland*<sup>®</sup> brand revenue was in line with last year's third quarter (down 1 percent currency neutral) including a mid-single-digit percentage rate decrease in the Americas region; a mid-single-digit percentage rate increase in Europe (up low single-digit currency neutral); and, a low single-digit rate decline in Asia-Pacific.

Third quarter operating income for Outdoor & Action Sports was up 1 percent to \$490 million (up 3 percent currency neutral). Operating margin was 21.0 percent, compared to 21.2 percent in the same period last year.

**Jeanswear** third quarter revenue declined 6 percent (down 4 percent currency neutral) to \$701 million due to unseasonably warm weather in September, softer consumer demand and shifts in the delivery of orders.

- *Wrangler*<sup>®</sup> brand revenue was down 6 percent (down 4 percent currency neutral) with a high single-digit percentage rate decline in the Americas business (down mid-single-digit currency neutral); a mid-single-digit percentage rate increase in Europe; and, a high single-digit increase in the Asia-Pacific region (up low double-digit currency neutral).
- Revenue for the *Lee*<sup>®</sup> brand was down 6 percent (down 4 percent currency neutral) including a high single-digit percentage rate decline in the Americas region; a mid-single-digit percentage rate increase in Europe; and, a high single-digit percentage rate decline in the Asia-Pacific region (down low single-digit currency neutral).

Operating income for Jeanswear in the third quarter declined 10 percent to \$142 million and operating margin was 20.3 percent, compared to 21.2 percent in the same period last year.

**Imagewear** third quarter revenue declined 3 percent to \$282 million (down 4 percent currency neutral) with a low single-digit percentage rate increase in the Licensed Sports Group business and a high single-digit decline in the workwear business, which continues to be impacted by challenges in the oil and gas exploration sector and employment trends in industrial manufacturing. Third quarter operating income for Imagewear was up 11 percent (up 8 percent currency neutral) to \$47 million and operating margin increased 230 basis points to 16.6 percent.

**Sportswear** third quarter revenue declined 13 percent to \$141 million including a 15 percent decrease in *Nautica*<sup>®</sup> brand revenue and a 6 percent decline in the *Kipling*<sup>®</sup> brand's North American business compared with the same period last year. These results reflect ongoing challenges in the U.S. department store and outlet channels, and general category demand. Additionally, the strategic decision to license the women's sleepwear and men's underwear businesses negatively impacted *Nautica*<sup>®</sup> brand revenue by about 8 percentage points in the quarter. Operating income for Sportswear decreased 35 percent to \$15 million with operating margin at 10.7 percent, compared to 14.3 percent in the same period last year.

### ***International Review***

International revenue in the third quarter was up 5 percent (up 6 percent currency neutral). Revenue in Europe was up 7 percent (up 6 percent currency neutral) and up 2 percent (up 4 percent currency neutral) in the Asia-Pacific region. Revenue in the Americas (non-U.S.) region was up 3 percent (up 9 percent currency neutral). The international business represented 41 percent of total VF third quarter sales, compared with 38 percent in last year's same period.

### ***Direct-to-Consumer Review***

Direct-to-consumer revenue was up 6 percent in the third quarter driven by a low double-digit percentage rate increase in the Outdoor & Action Sports business offset by a low-teen decline in Sportswear. The company's e-Commerce business continued its strong momentum with 18 percent revenue growth. There were 1,475 VF-owned retail stores at the end of the quarter compared with 1,363 for last year's same period. Direct-to-consumer revenue reached 23 percent of total third quarter revenue compared with 21 percent in last year's same period.

### ***Balance Sheet Highlights***

On September 20, 2016, the company issued €850 million of senior notes to be used for working capital and general corporate purposes, including repayment of outstanding indebtedness under its existing commercial paper program. As expected, inventories were up 1% compared with the same period of 2015.

### ***Share Repurchases***

During the third quarter, the company purchased 2.7 million shares of its own stock for \$166 million under a program authorized by its Board of Directors. In 2016, the company has purchased nearly 16 million shares for \$1 billion. There are approximately 15 million remaining shares authorized for purchase.

### ***2016 Outlook***

Following is the adjusted outlook for 2016:

- **Revenue**, on a currency neutral basis, is expected to increase 2 percent to about \$12.2 billion compared to the previous estimate of 3 to 4 percent growth. Revenue for the **Outdoor & Action**

**Sports** coalition is now expected to increase at a low single-digit percentage rate compared with previous expectation of mid-single-digit growth due primarily to proactive inventory reductions by both *The North Face*<sup>®</sup> and *Timberland*<sup>®</sup> brands related to fourth quarter wholesale orders. Revenue for the **Jeanswear** coalition is now expected to increase at a low single-digit percentage rate compared with previous expectation of mid-single-digit growth. **Direct-to-Consumer** revenue is now expected to increase at a high single-digit percentage rate compared with previous expectation of low double-digit growth.

- **Gross margin** is expected to reach 48.6 percent, which includes about 70 basis points of headwind from changes in foreign currency.
- **Operating margin** is now expected to reach 14.3 percent, including about 60 basis points of negative impact from changes in foreign currency. This is 20 basis points lower than the previous 14.5 percent estimate.
- Reported **earnings per share** is expected to increase 3 percent to \$3.13 (up 7 percent currency neutral) compared with previous expectation of a 5 percent increase to \$3.20 (up 11 percent currency neutral). This is compared to EPS from continuing operations of \$3.04 in 2015 as presented in the financial tables below.
- Other full-year assumptions include an approximate 20 percent **effective tax rate**. The expectation of \$1.3 billion of **cash flow from operations** remains unchanged.

### ***Dividend Declared***

On October 20, VF's Board of Directors declared a quarterly dividend of \$0.42 per share, reflecting a 14 percent increase over the previous quarter's dividend. This dividend will be payable on December 19, 2016, to shareholders of record at the close of business on December 9, 2016.

### ***Currency Neutral – Excluding the Impact of Foreign Currency***

This release refers to "reported" amounts in accordance with U.S. generally accepted accounting principles ("GAAP"), which include translation and transactional impacts from foreign currency exchange rates. This release also refers to "currency neutral" amounts, which exclude both the impact of translating foreign currencies into U.S. dollars and the impact of currency rate changes on foreign currency denominated transactions. Reconciliations of GAAP measures to currency neutral amounts are presented in the supplemental financial information included with this release, which identify and quantify all excluded items.

### ***Webcast Information***

VF will host its 2016 third quarter conference call beginning at approximately 8:30 a.m. Eastern Time today. The conference call will be broadcast live via the Internet, accessible at [ir.vfc.com](http://ir.vfc.com). For those unable to listen to the live broadcast, an archived version will be available at the same location.

### ***About VF***

VF Corporation (NYSE: VFC) is a global leader in the design, manufacture, marketing and distribution of branded lifestyle apparel, footwear and accessories. The company's highly diversified portfolio of powerful brands spans numerous geographies, product categories, consumer demographics and sales channels, giving VF a unique industry position and the ability to create sustainable, long-term growth for our customers and shareholders. The company's largest brands are *The North Face*<sup>®</sup>, *Vans*<sup>®</sup>, *Timberland*<sup>®</sup>, *Wrangler*<sup>®</sup>, *Lee*<sup>®</sup> and *Nautica*<sup>®</sup>. For more information, visit [www.vfc.com](http://www.vfc.com).

### ***Forward-looking Statements***

Certain statements included in this release and attachments are "forward-looking statements" within the

meaning of the federal securities laws. Forward-looking statements are made based on our expectations and beliefs concerning future events impacting VF and therefore involve a number of risks and uncertainties. You can identify these statements by the fact that they use words such as “will,” “anticipate,” “estimate,” “expect,” “should,” and “may” and other words and terms of similar meaning or use of future dates. We caution that forward-looking statements are not guarantees and that actual results could differ materially from those expressed or implied in the forward-looking statements. Potential risks and uncertainties that could cause the actual results of operations or financial condition of VF to differ materially from those expressed or implied by forward-looking statements in this release include, but are not limited to: foreign currency fluctuations; the level of consumer demand for apparel, footwear and accessories; disruption to VF’s distribution system; VF’s reliance on a small number of large customers; the financial strength of VF’s customers; fluctuations in the price, availability and quality of raw materials and contracted products; disruption and volatility in the global capital and credit markets; VF’s response to changing fashion trends; increasing pressure on margins; VF’s ability to implement its business strategy; VF’s ability to grow its international and direct-to-consumer businesses; VF’s and its customers’ and vendors’ ability to maintain the strength and security of information technology systems; stability of VF’s manufacturing facilities and foreign suppliers; continued use by VF’s suppliers of ethical business practices; VF’s ability to accurately forecast demand for products; continuity of members of VF’s management; VF’s ability to protect trademarks and other intellectual property rights; possible goodwill and other asset impairment; maintenance by VF’s licensees and distributors of the value of VF’s brands; changes in tax liabilities; legal, regulatory, political and economic risks; and adverse or unexpected weather conditions. More information on potential factors that could affect VF’s financial results is included from time to time in VF’s public reports filed with the Securities and Exchange Commission, including VF’s Annual Report on Form 10-K and Quarterly Reports on Form 10-Q.

<sup>a</sup> Reflects the impact of adopting the new accounting guidance on classification of debt issuance costs and deferred income taxes as of December 2015 on a retrospective basis. The new guidance requires classification of debt issuance costs related to a recognized debt liability as a direct reduction of that liability, and classification of all deferred taxes as noncurrent.

### Currency Neutral Financial Information

VF is a global company that reports financial information in U.S. dollars in accordance with GAAP. Foreign currency exchange rate fluctuations affect the amounts reported by VF from translating its foreign revenues and expenses into U.S. dollars, and from entering foreign currency transactions. These rate fluctuations can have a significant effect on reported operating results. As a supplement to our reported operating results, we present currency neutral financial information, which is a non-GAAP financial measure that excludes the incremental current year impact of foreign currency exchange. We use currency neutral information to provide a framework to assess how our business performed excluding the effects of changes in the rates used to calculate foreign currency translation, and transaction gains and losses. Management believes this information is useful to investors to facilitate comparison of operating results and better identify trends in our businesses.

To calculate foreign currency translation on a currency neutral basis, operating results for the current year period for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average exchange rates in effect during the comparable period of the prior year (rather than the actual exchange rates in effect during the current year period). Similarly, transaction gains and losses on a currency neutral basis are calculated using exchange rates from the comparable period of the prior year.

These currency neutral performance measures should be viewed in addition to, and not in lieu of or superior to, our operating performance measures calculated in accordance with GAAP. The currency neutral information presented may not be comparable to similarly titled measures reported by other companies.
