All per share amounts are presented on a diluted basis. This release refers to "reported" and "constant dollar" amounts, terms that are described under the heading "Constant Currency - Excluding the Impact of Foreign Currency." Unless otherwise noted, "reported" and "constant dollar" amounts are the same. This release also refers to "continuing" and "discontinued" operations amounts, which are concepts described under the heading "Discontinued Operations - *Nautica*[®] Brand Business and Licensing Business." Unless otherwise noted, results presented are based on continuing operations. This release also refers to "adjusted" amounts, terms that are described under the heading "Adjusted Amounts - Excluding Williamson-Dickie, *Icebreaker*[®], *Altra*[®], *Reef*[®], and Jeans Spin-Off Transaction and Deal Related Expenses, Costs Related to Office Relocations and the Provisional Impact of U.S. Tax Legislation." Unless otherwise noted, "reported" and "adjusted" amounts are the same.

Constant Currency - Excluding the Impact of Foreign Currency

This release refers to "reported" amounts in accordance with U.S. generally accepted accounting principles ("GAAP"), which include translation impacts from foreign currency exchange rates. This release also refers to "constant dollar" amounts, which exclude the impact of translating foreign currencies into U.S. dollars. Reconciliations of GAAP measures to constant currency amounts are presented in the supplemental financial information included with this release, which identifies and quantifies all excluded items, and provides management's view of why this information is useful to investors.

Discontinued Operations - *Nautica*[®] Brand Business and Licensing Business

On April 30, 2018, the company completed the sale of its *Nautica*[®] brand business. On April 28, 2017, the company completed the sale of its Licensed Sports Group ("LSG") business, including the *Majestic*[®] brand. In conjunction with the LSG divestiture, VF executed its plan to entirely exit the licensing business and completed the sale of the assets of the *JanSport*[®] brand collegiate business in the fourth quarter of 2017. Accordingly, the company has included the operating results of these businesses in discontinued operations through their respective dates of sale.

Adjusted Amounts - Excluding Williamson-Dickie, *Icebreaker*[®], *Altra*[®], *Reef*[®], and Jeans Spin-Off Transaction and Deal Related Expenses, Costs Related to Office Relocations and the Provisional Impact of U.S. Tax Legislation

This release refers to adjusted amounts that exclude transaction and deal related expenses associated with the acquisitions and integration of Williamson-Dickie, *Icebreaker*[®] and *Altra*[®], and the estimated losses on sale related to the expected divestitures of the *Reef*[®] brand and the Van Moer business, which was acquired in connection with the Williamson-Dickie acquisition. The release also refers to transaction

expenses associated with the planned spin-off of the Jeans business. Total transaction and deal related expenses, including the estimated losses on sale, were approximately \$53 million in the second quarter of fiscal 2019 and \$72 million in the first six months of fiscal 2019.

This release also refers to adjusted amounts that exclude costs primarily associated with the previously announced relocations of VF's global headquarters and certain brands to Denver, Colorado. Total costs were approximately \$11 million in the second quarter and first six months of fiscal 2019.

Adjusted amounts in this release also exclude the provisional amounts recorded due to recent U.S. tax legislation. On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act. Measurement period adjustments related to the provisional net charge resulted in a net expense of approximately \$16 million in the second quarter of fiscal 2019 and \$13 million in the first six months of fiscal 2019.

Combined, the above net charges negatively impacted earnings per share by \$0.17 during the second quarter of fiscal 2019 and \$0.20 during the first six months of fiscal 2019. All adjusted amounts referenced herein exclude the effects of these amounts.

Reconciliations of measures calculated in accordance with GAAP to adjusted amounts are presented in the supplemental financial information included with this release, which identifies and quantifies all excluded items, and provides management's view of why this information is useful to investors.

"VF's second quarter results were strong driven by our core brands, the company's international and direct-to-consumer platforms, and our work businesses," said Steve Rendle, Chairman, President and Chief Executive Officer. "As we move into the second half of our fiscal year, we are confident in our growth engines as evidenced by the increase in both our dividend and full year outlook. We continue to invest behind our strategic growth priorities, and the actions we are taking continue to advance our journey toward transforming VF into a purpose-led, performance-driven, consumer centric organization focused on and committed to delivering superior returns to shareholders."

Constant Currency Financial Information

VF is a global company that reports financial information in U.S. dollars in accordance with GAAP. Foreign currency exchange rate fluctuations affect the amounts reported by VF from translating its foreign revenues and expenses into U.S. dollars. These rate fluctuations can have a significant effect on reported operating results. As a supplement to our reported operating results, we present constant currency financial information, which is a non-GAAP financial measure that excludes the impact of translating foreign currencies into U.S. dollars. We use constant currency information to provide a framework to assess how our business performed excluding the effects of changes in the rates used to calculate foreign currency translation. Management believes this information is useful to investors to facilitate comparison of operating results and better identify trends in our businesses.

To calculate foreign currency translation on a constant currency basis, operating results for the current year period for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average exchange rates in effect during the comparable period of the prior year (rather than the actual exchange rates in effect during the current year period).

These constant currency performance measures should be viewed in addition to, and not in lieu of or superior to, our operating performance measures calculated in accordance with GAAP. The constant currency information presented may not be comparable to similarly titled measures reported by other companies.
