Earnings per share:

Basic - Net income	\$ 0.89	\$ 0.50	\$ 2.85	\$ 1.64
Diluted - Net income	\$ 0.88	\$ 0.49	\$ 2.82	\$ 1.61

Financial Results

VSE revenues increased approximately \$96.2 million (up 94%) and \$289.4 million (up 80%) for the three and twelve-month periods of 2007 compared to the same periods of 2006. The primary reasons for the increases were 1) revenues associated with the U.S. Army Equipment Support Program and other revenues under VSE's R2 contract; 2) revenues from the Treasury Seized Property Management Program; and 3) revenues from VSE's recently acquired ICRC subsidiary.

VSE net income increased approximately \$2.1 million (up 87%) and \$6.3 million (up 81%) for the three and twelve-month periods of 2007 compared to the same periods of 2006. The increases were primarily due to 1) increased profitability on certain Army and Army Reserve programs; 2) earnings from the operations of ICRC acquired in June 2007; 3) earnings from the increase in revenues associated with the U.S. Army Equipment Support Program and other revenues under VSE's R2 contract; and 4) increased ship transfer fee income.

CEO Comments

VSE Chairman and Chief Executive Officer Don Ervine said, "The financial results reported today are in line with the positive trend in VSE operations and results reported in recent years. VSE revenues have grown significantly as our ability to meet customer needs has grown. With the increase in revenues, we have been able to allocate our corporate costs over a larger base and improve our margins on certain time and materials and fixed price contracts."

"As previously reported, during the fourth quarter of 2007 we received new contracts and delivery orders supporting our Tanker Ballistic Protection System Program and the operations of our subsidiary Energetics. Our funded backlog was approximately \$408 million at December 31, 2007 compared to approximately \$299 million at December 31, 2006, and our personnel count increased to approximately 1,223 employees at year end compared to approximately 836 at the beginning of the year. Based on these and other factors, and on our sense of VSE's favorable position in several of the markets we serve, we anticipate continued growth in 2008. We also continue to examine acquisition opportunities that have the potential to support our growth in the years ahead."

VSE encourages investors and others to review the detailed reporting and disclosures contained in VSE public filings for further information and analysis of VSE's financial condition and results of operations. The public filings include additional discussion about the status of specific customer programs, risks, revenue sources and funding, dependence on material customers, and management's discussion of short and longer term business challenges and opportunities.
