## **VSE Awarded \$63M U.S. Army Reserve Command Recompetes**

*VSE will continue providing engineering, maintenance and logistics readiness support for USARC RSCs*

ALEXANDRIA, Va.-- VSE Corporation (NASDAQ: VSEC) was awarded two Firm Fixed Price (FFP) Task Orders in September under its Field and Installation Readiness Support Team (FIRST) prime contract to continue the support services to the U.S. Army Reserve Command (USARC) for its 63<sup>rd</sup> and 88<sup>th</sup> Regional Support Command (RSC) Logistics Readiness Support programs, based out of Ft. McCoy, WI. The 63<sup>rd</sup> Task Order has a period of performance of 12 months with one 12-month option. The 88<sup>th</sup> RSC Task Order has a period of performance of 12 months with two 12-month options. The total combined value of both task orders is approximately \$63M.

When combined with a task order awarded to VSE on August 23<sup>rd</sup> under its Rapid Response Third Generation (R2-3G) contract, the additional awards of the 63<sup>rd</sup> and 88<sup>th</sup> RSC enable us to continue work previously performed by VSE under a General Services Administration (GSA) task order that expired in July 2013. VSE will work directly with Government employees and Army reservists at the two RSCs to deliver effective Combat Service Support to the Army across a 19-state region. These task orders require the storage, supply, and maintenance of thousands of pieces of equipment, property accountability, vehicle operations, maintenance management, field and sustainment level maintenance, storage operations, Hands on Training (HOT) support, and watercraft maintenance support.

"We have assembled a superb team that has proven its ability to work effectively at the 88th and 63<sup>rd</sup> RSCs, and these awards are a reflection of our long-term history, commitment, and investment with our USARC customer," said Federal Group President Donnelle Moten. "We are prepared to continue service at the highest level to ensure the units we support have the equipment they need to maximize training opportunities and meet their readiness targets."

### **About VSE**

Established in 1959, VSE is a diversified federal services company with experience in solving issues of global significance with integrity, agility, and value. VSE is dedicated to our clients' success by delivering sustainment services for legacy systems and equipment and professional services through talented people and innovative solutions.
