Vuzix Receives M300 Follow-On Orders from SATS to Rollout and Outfit Ramp Handling Operations with Smart Glasses at Changi Airport

"The World's First Augmented Reality on the Tarmac"

ROCHESTER, N.Y., Oct. 9, 2018 /PRNewswire/ -- [Vuzix® Corporation](#) (NASDAQ: VUZI), ("Vuzix" or, the "Company"), a leading supplier of Smart Glasses and Augmented Reality (AR) technologies and products, is pleased to announce that the Company has received an ~\$1 million commercial M300 Smart Glasses follow-on order from SATS Ltd. (SATS), Asia's leading provider of Gateway Services and Food Solutions, to outfit SATS' ramp handling operations at the Changi Airport in Singapore.

SATS, the chief ground-handling and in-flight catering service provider at Singapore Changi Airport, started piloting the Vuzix M300 Smart Glasses to digitize its ramp handling operations in mid-2017 and is now completing phase 2 by introducing and deploying the technology to more than 500 staff at Changi Airport. Using Vuzix M300 Smart Glasses, SATS ramp handling staff will now be able to scan barcodes on baggage and cargo containers to improve the baggage handling process. Ramp handling staff will also receive real-time loading instructions, which provides the ramp control center with a real-time view of on-ground processes. SATS expects to increase accuracy and improve efficiency of

baggage and cargo handling processes for larger wide-body aircraft, by reducing loading times by up to 15 minutes per flight on average.

SGX-listed SATS provides services in 60 airports and 62 cities across Asia and the Middle East. An overview of the SATS' augmented reality smart glasses project at the Changi Airport can be viewed [here](#) and [here](#).

"SATS is a leader at innovation and now they are driving operational improvement through the use of Smart Glasses in their ramp handling operations. We are excited to be able to outfit SATS ramp handling staff at the Changi Airport with M300 Smart Glasses to help them quickly and accurately turnaround aircrafts and we look forward to additional smart glasses deployments with SATS in the future," said Paul Travers, Vuzix President and Chief Executive Officer.
