Jon S. Wheeler, Chairman and Chief Executive Officer, commented, "I am very pleased with the company's performance for the fourth quarter and full year 2015. We ended the year strong with both revenues and NOI increasing over 80%, largely attributed to acquisitions and higher rental rates. Renewal leasing spreads were again positive for the twelfth straight quarter, and the renewal of two of our anchors tenants confirms our belief that our properties are well located and tenants profitable. The success of our strategy to acquire stable, mainly grocery anchored shopping centers in the secondary and tertiary markets is clearly reflected in our results. The majority of our tenants are national or large regional companies that provide basic goods and services at a discount; making them less likely to be adversely affected by market changes. Same store retail NOI increased 14.4% for the quarter and 6.9% for the year demonstrating our ability to create value within the portfolio.

While the capital markets volatility has been a concern for us and our peers, we feel that we have a very strong portfolio that has the ability to deliver value for our investors through increased revenues, contractual rent escalations and our ability to generate fees from third party services. We made great strides in cleaning up our balance sheet during the year, and we remain focused on creating internal value as we await stability in the equity markets. Our focus remains on increasing value to the accretive benefit of our shareholders. We continue to focus on both internal and external growth that includes a sizeable acquisition pipeline that we plan to discuss on the 4Q15 earnings call. As we move into 2016, we expect to continue to demonstrate the same positive trajectory towards dividend coverage that we experienced in 2015."

2015 Fourth Quarter Financial Review

- For the fourth quarter of 2015, total revenue from continuing operations increased by approximately 80.4% to \$9.2 million, compared with total revenue from continuing operations of \$5.1 million for the same prior year period.

\$0.04 per basic and diluted share, compared to a net loss of \$5.2 million or \$0.70 per basic and diluted share, during the same 2014 period. The decrease in net loss for the fourth quarter 2015 was primarily due to the \$2.8 million increase in NOI resulting from the 2015 and 2014 acquisitions, the \$2.1 million gain on sale of discontinued operations and the increase in weighted average shares outstanding. Excluding the gain on sale, the net loss attributable to Wheeler REIT common shareholders would have been \$4.8 million, or \$0.07 per basic and diluted share. Net loss attributable to Wheeler REIT common shareholders for the 2015 fourth quarter was also impacted by a \$2.8 million increase in depreciation and amortization due to the 2015 and 2014 acquisitions and a \$1.5 million decrease in corporate general and administrative expenses due to a reduction in acquisition activity during the 2015 4th quarter as compared to the prior year.

The increase in net loss for the year ended December 31, 2015 was primarily due to the \$72.6 million non-cash deemed dividend on the conversion of the Series C Preferred Stock and a \$9.5 million increase in depreciation and amortization. About Wheeler Real Estate Investment Trust, Inc.

Headquartered in Virginia Beach, VA, Wheeler Real Estate Investment Trust, Inc. is a fully-integrated, self-managed commercial real estate investment company focused on acquiring and managing income-producing retail properties with a primary focus on grocery-anchored centers. Wheeler's portfolio contains well-located, potentially dominant retail properties in secondary and tertiary markets that generate attractive, risk-adjusted returns, with a particular emphasis on grocery-anchored retail centers. For additional information about the Company, please visit: www.whlr.us.

Financial Information

A copy of Wheeler's Annual Report on Form 10-K, which includes the Company's consolidated financial statements and management's discussion & analysis of financial condition and results of operations, will be available upon filing via the U.S. Securities and Exchange Commission website (www.sec.gov) or through Wheeler's website at www.whlr.us.

FFO, AFFO, Pro Forma AFFO, Property NOI, EBITDA and Adjusted EBITDA are non-GAAP financial measures within the meaning of the rules of the Securities and Exchange Commission. Wheeler considers FFO, AFFO, Pro Forma AFFO, Property NOI, EBITDA and Adjusted EBITDA to be important supplemental measures of its operating performance and believes it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization unique to real estate, gains and losses from property dispositions and extraordinary items, the Company believes that it provides a performance measure that, when compared year-over-year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, development activities and interest costs, providing perspective not immediately apparent from the closest GAAP measurement, net income.

Management believes that the computation of FFO in accordance with NAREIT's definition includes certain items that are not indicative of the operating performance of the Company's real estate assets. These items include, but are not limited to, non-recurring expenses, legal settlements, legal and professional fees, and acquisition costs. Management uses AFFO, which is a non-GAAP financial measure, to exclude such items. Management believes that reporting AFFO and Pro Forma AFFO in addition to FFO is a useful supplemental measure for the investment community to use when evaluating the operating performance of the Company on a comparative basis. Management also believes that Property NOI, EBITDA and Adjusted EBITDA represent important supplemental measures for securities analysts, investors and other interested parties, as they are often used in calculating net asset value, leverage and other financial metrics used by these parties in the evaluation of REITs.

(1) Annual other non-recurring expenses are detailed in "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our 2015 Annual Report on Form 10-K.

(2) Pro forma AFFO assumes the following transactions had occurred on January 1, 2015: (i) the Pierpont Center, Alex City Marketplace, Butler Square, Brook Run Shopping Center, Beaver Ruin Village, Beaver Ruin Village II, Chesapeake Square, Sunshine Plaza, Barnett Portfolio, Grove Park, Parkway Plaza, Ft. Howard Square and Conyers Crossing acquisitions; the sales of Bixby Commons, Harps and Jenks Reasors; the Series C Preferred Stock capital raise and subsequent conversion; and the Series A Preferred Stock and Series B Convertible Preferred Stock exchange offer that closed on July 23, 2015. Additionally, we excluded all non-recurring expenses detailed in "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our December 2015 Annual Report on Form 10-K, the Lumber River loan which was paid off on May 1, 2015 and any additional common stock and common units issued during the year ended December 31, 2015 were outstanding for the entire period. The Pro forma AFFO is being presented solely for purposes of illustrating the potential impact of these transactions as if they occurred on January 1, 2015, based on information currently available to management, and is not necessarily indicative of what

actual results would have been had the transactions referred to above occurred on January 1, 2015.

(3) We adjusted the 2014 previously reported AFFO to be consistent with the 2015 AFFO presentation, primarily as it relates to the treatment of preferred stock accretion adjustments, straight-line rent for AFFO calculation purposes, tenant improvement reserves and capital expenditures. Additionally, we did not provide Pro Forma AFFO per common share and common unit for 2014 as we consider it not meaningful to the 2015 presentation.
